THE WHITE HOUSE, WASHINGTON
June 30, 1914

MY DEAR DOCTOR SWAIN:

I was very much complimented by the courtesy and urgency of the kind invitation which you conveyed to me to be present at the meeting of the National Education Association at St. Paul and genuinely regretted that public duties made it impossible for me to give myself that pleasure.

Thoughtful people all over the country follow the deliberations of the National Education Association with genuine interest. The problems of education are really problems affecting national development and national ideas. I think that no one long associated with the profession of teaching can have failed to catch the inspiration of it or to see how great a power may be exercised thru the classroom in directing the thinking and the ambition of the generations coming on, or can have failed to realize that nothing less than a comprehension of the national life is necessary to fit a teacher for the great task of preparation and adaptation to the future that education attempts.

Cordially and sincerely yours,

(Signed) WOODROW WILSON

ST. PAUL, MINN., July 6, 1914

The President,
Washington, D.C.

DEAR MR. PRESIDENT:

The members of the National Education Association wish to express their great appreciation of your welcome and encouraging message. They beg you to receive their cordial and sincere greeting.

(Signed) JOSEPH SWAIN
President, National Education Association

President Swain then read the cablegram sent to David Starr Jordan notifying him of his election to the presidency of the National Education Association and the reply received thereto, as follows:

ST. PAUL, MINN., July 9, 1914

David Starr Jordan
Bank of Montreal Limited
London, England

Elected president of National Education Association unanimously. Congratulations. Wire acceptance.

(Signed) JOSEPH SWAIN
President, National Education Association

LONDON, ENGLAND, July 10, 1914

*Joseph Swain, President
National Education Association
St. Paul, Minn.*

Honor highly appreciated. If I can serve the teachers, I will gladly do so.
(Signed) DAVID STARR JORDAN

In closing, President Swain spoke as follows:

We have come to the closing hour of the Fifty-second Annual Convention. I certainly deeply appreciate the good will of this Association as expressed in the resolution of the active members yesterday. I appreciate still more the cordial co-operation of all the forces in the National Education Association and in this state and city, which have made this convention an inspiration and an influence for good in the development of the schools.

Your cordial reception reminds me of a statement of President Angell, of the University of Michigan. The alumni of Michigan on one occasion were trying to tell President Angell how much the University of Michigan was indebted to him for his service. When it came his turn to speak, he said: "I did not make the University of Michigan. The University of Michigan made me." My part has been the very humble one of helping you to give expression to the high ideal and tradition of this Association. In a very real sense I have not made this convention, this convention has made me.

I ask that you give David Starr Jordan, the scholar, the philosopher, the poet, the democrat of democrats, the promoter of the world's peace, the help and co-operation which you have given me. I cannot ask more.

President Swain then announced the adjournment of the Fifty-second Convention of the National Education Association.

DURAND W. SPRINGER, *Secretary*

MINUTES OF THE MEETING OF ACTIVE MEMBERS OF THE NATIONAL EDUCATION ASSOCIATION FOR THE YEAR 1913-14

ST. PAUL, MINN., THURSDAY, JULY 9, 1914

The meeting was called to order in the Auditorium by President Joseph Swain at 11:00 A.M., Thursday, July 9, 1914.

PRESIDENT SWAIN: We shall follow the order of business as stated in the program. I call first for the report of the Executive Committee.

SECRETARY SPRINGER: Just a general statement in advance of our business. In the deliberations, as persons on the floor arise to address the chair, will you please give your name and address in order that they may appear correctly in the *Proceedings*.

The following is the report of the Executive Committee:

To the active members of the National Education Association:

As required by the by-laws of this Association, your Executive Committee has carefully considered the requests for appropriations which have been presented by the chairmen of the various committees, both general and departmental.

The committee has been unable to recommend the allowance of all the appropriations asked for, and, in most cases, has been obliged to recommend a smaller appropriation for the several committees than was asked for. We feel, however, that the Association can with safety appropriate the amounts named to the following committees to be used by them during the year 1914-15.

Committee on Health Problems in Education	\$ 500
Committee on Vocational Education and Vocational Guidance	500
Commission on the Reorganization of Secondary Education	400
Committee on Rural Schools	500
Committee on Teachers' Salaries, Tenure, and Pensions	1,000
Committee on Economy of Time in Elementary Education	200
Committee on Standards and Tests of Efficiency in Schools and School Systems	100
Committee on the Improvement of Physics Teaching	100
Committee on Course of Study in Agriculture	100
Committees on School Revenue and School Health (Department of School Patrons)	50
Committee on Terminology (Department of Music Education)	25

Your committee recommends, in making these appropriations, that authority be given to the Executive Committee for next year to assume temporary responsibility in deciding which expenditures are most important in the work of these various committees, and which expenditures shall be first authorized if, in any case, it shall be impracticable for all such expenditures to be allowed.

PRESIDENT SWAIN: You have heard this report; what is your pleasure?

A motion was thereupon made to adopt the report, which was duly seconded.

PRESIDENT SWAIN: It has been moved and seconded that the report be adopted.

C. R. ROUNDS, of Wisconsin: Mr. President, Ladies and Gentlemen: I do not find any recommendation there with regard to an appropriation for the Committee on Uniform Nomenclature in English Grammar. That committee was created by the National Education Association at Mobile, which action was indorsed by the National Education Association at San Francisco, and the committee was officially joined with two other like committees from two other educational societies. We were directed to go to work, to hold meetings, and to present a report. Everybody knows we cannot have meetings without expense. We supposed, in going ahead and holding our meeting, that our expenses

would be met, but there is no appropriation. With the exception of \$250 we have not received from the National Education Association appropriations to reimburse us for our expense. Mrs. Young advanced \$500 out of her own pocket to reimburse some of us temporarily for a portion of our expenses. Personally (you will pardon me if I mention this) I have expended \$160 more than the amount for which I have presented a bill, for which I have not been reimbursed. We are school-teachers, and we could not have afforded to assume such expenses if we had not thought that this National Education Association meant business and wanted us to go ahead and do something and present a report—in other words, if we had not believed that an appropriation would be forthcoming, we would not have gone ahead. But we went ahead and presented our report; it was adopted by the National Education Association at Salt Lake City and was recommended for use in the public schools. Similar action was taken by the Modern Language Association of America, the National Council of Teachers of English, and the American Philological Association. I am told that eight texts are coming out this fall which will include that nomenclature. Your committee feels that it has discharged its stewardship, and we feel that we ought to present this matter to you and see what you think about it. Do you want the National Education Association to go on record as having created a committee which it knows will be under very severe expense—to say nothing of the time that we spent, three hundred hours in actual committee meetings, besides countless hours in subcommittee meetings—we want to know whether the National Education Association means to create such a committee and then let its members stand their expense out of their own pockets. I therefore move that the appropriation made at Salt Lake City be continued, the same to be paid as soon as warranted by the finances of the Association.

PRESIDENT SWAIN: You have heard the motion, which has been seconded. Is there any other discussion?

ACTIVE MEMBER: What is the amount necessary to defray the expenses of that committee?

MR. ROUNDS: Fourteen hundred dollars.

ACTIVE MEMBER: Is it true that the committee has incurred already an expense of \$1,400 which the members have borne themselves?

MR. ROUNDS: We have borne that ourselves and paid it out of our own pockets. The total expense far exceeds that. We procured \$800 from rich people in Chicago and Boston and other large cities, and besides that we expended \$1,400 out of our own pockets for which we have not been reimbursed.

E. T. FAIRCHILD, of New Hampshire: I am speaking on behalf of the Executive Committee, whose responsibility it is to pass upon the various requests for aid. This year the total requests amount to something over \$15,000. The Executive Committee had at its command rather less than \$4,000. It was necessary and is necessary to scale these requests very considerably. Now, if I may be pardoned, I will spend just a moment in discussing the Executive Committee's action with relation to committee reports and requests. We all recognize that this committee represented by Mr. Rounds has performed a splendid service. It was appointed by authority of the National Education Association, but there is this problem that should and must be considered in any intelligent vote upon the question before us. The constitution and by-laws set forth the provision by means of which committees may be appointed and which covers also the question of expenses. So far as any information has come to the Executive Committee, the committee represented by Mr. Rounds expended money without any definite authority from this Association. If every committee were to proceed as that committee proceeded, we should be bankrupt in a very short time. The Executive Committee felt that it was its responsibility to conserve those funds which are in its keeping. May I repeat that each one of us recognizes the value of this report, the singleness of the purpose of the various members of the committee, the arduous labors and duties which they have performed—

we recognize that, and we wish that some way might be found to pay these bills, which we rather fail to see as an obligation. It would be a privilege and a pleasure to pay them if we had the money, but, inasmuch as these obligations were incurred without authority, we question the right to meet the request for an appropriation. It is a dilemma which we regret. However, it is not only a matter of sentiment, but a matter of business policy, which it seems to me we ought carefully to determine in our vote on this matter.

WILLIAM O. THOMPSON, of Ohio: I move that the matter be referred to the Executive Committee with power to act.

This was duly seconded.

PRESIDENT SWAIN: It has been moved and seconded that this matter be referred to the Executive Committee with power to act.

E. E. SCRIBNER, of Michigan: I move you as an amendment that it be brought before the new Board of Directors before it goes to the Executive Committee.

PRESIDENT SWAIN: Will the mover of the previous motion accept this amendment?

MR. THOMPSON: I shall be glad to accept it. My second seems to concur.

PRESIDENT SWAIN: That being accepted, the motion now is that the matter be referred to the new Board of Directors first, and then that it be referred to the Executive Committee with power to act.

A. W. RANKIN, of Minnesota: May I recommend that we pay our just debts before we incur new ones.

PRESIDENT SWAIN: All in favor of the motion will please say, "Aye." Contrary, "No." It is carried.

CLARENCE D. KINGSLEY, of Massachusetts: I represent the Commission on the Reorganization of Secondary Education, which had an appropriation last year of \$525. We exercised so much economy, however, that some of this money has not been expended.

I will say further that the Commission consists of about two hundred people actually engaged in high-school work, many of whom have devoted hours to the work of the Commission. The appropriation which you made for this coming year was only \$400, and we have about twelve subcommittees. Now, you can see we are very much in need of funds, and I therefore desire to offer a motion, which I shall read:

It is moved that the Executive Committee be authorized to allow any committee to expend during the coming year any part of the appropriation made but not expended during the preceding year, when, in its judgment, such expenditure is desirable.

This was duly seconded.

PRESIDENT SWAIN: Is there anything to be said?

MR. THOMPSON: I should like to inquire whether these unexpended balances have been included with the assets of the Association when it was figured that \$4,000 was available for committee expenditures. Now if these unexpended balances are already in, this might create another deficit. If this is a question of bookkeeping, I should like to know if these unexpended balances are reported.

SECRETARY SPRINGER: We estimated, when making the appropriations, that there would be an indebtedness of \$178.33 to this committee.

MR. FAIRCHILD: Mr. Thompson asks whether that has reverted.

SECRETARY SPRINGER: It has not actually reverted, but it was counted in when we made our estimate.

PRESIDENT SWAIN: I see no objection to this motion. As President Thompson says, it will not call for the expenditure of any more funds, but if the funds of the Association should by any means be larger than the estimate which is given, it would give the Executive Committee the right to make these appropriations, which, of course, the Executive Committee would be delighted to do. Therefore, while the position stated by President Thompson is a correct one, the Chair sees no objection to the motion.

MARGARET HALEY, of Illinois: May we have that read again?

MR. KINGSLEY: It is moved that the Executive Committee be authorized to allow any committee to expend during the coming year any part of the appropriation made but not expended during the preceding year, when, in its judgment, such expenditure is desirable.

MR. SCRIBNER: I want to inquire whether "its" refers to the Executive Committee.

PRESIDENT SWAIN: The Executive Committee is intended.

MISS HALEY: I am very much interested in the appropriation for the Committee on Teachers' Salaries, Tenure, and Pensions. We have an unexpended balance, and we should appreciate it very much if the Executive Committee would give us that unexpended balance for our committee in addition to our appropriation.

PRESIDENT SWAIN: All in favor of the motion will please say, "Aye." Contrary, "No." It is so ordered.

JAMES M. GREENWOOD, of Missouri: I should like to ask whether the report of the Executive Committee has been adopted as a whole, or whether these are supplemental reports, or independent reports.

W. S. MCKINNEY, of Illinois: The Committee on Research, Standardization, and Correlation has been before this Association for three years in succession asking for an appropriation, because we need one quite as much as many of the other committees. Commercial subjects have been introduced in the schools quite generally, and a thoro organization of commercial education is necessary. We have never had a dollar appropriated to carry on our work, and I could tell some stories about expenditures that have been incurred by individuals. We have come here pleading, not that you reimburse us for any moneys that have been paid out by individuals heretofore, but that an appropriation be made for future work of this committee. We have, as yet, had no recognition in a practical way. I therefore move that the Committee on Research, Standardization, and Correlation of the Business Department be recognized as an applicant for an appropriation and its request referred to the Executive Committee for such, if, in the judgment of the Executive Committee, the finances of the Association will warrant.

This was duly seconded.

PRESIDENT SWAIN: Are there any remarks?

J. STANLEY BROWN, of Illinois, chairman of the Board of Trustees: Let me say in answer to the gentleman who has just spoken that, when this subject came before the Executive Committee, it was found that there are at least four committees whose work duplicates that of each of the others. Last year, about this time, the Committee on Articulation of High Schools and Colleges asked that its name be changed to the Commission on the Reorganization of Secondary Education. That name was changed and an appropriation made for the commission. In the work of the commission, one of the things which comes up for consideration is this subject of commercial education. It seems unwise and uneconomic and unbusinesslike to have two committees working in the same field, each receiving a separate stipend, and, since this work is a duplication of the work already provided for, it seems wise to deny this request for an appropriation.

MR. MCKINNEY: I wish to say that if this a smothering process, it is a good one, and it is certainly effective. The Department of Business Education was established by the National Education Association. It is having meetings, electing officers, and discussing educational questions. It is unjust that it should be thus absolutely ignored.

SHERWIN CODY, of Illinois: I just want to correct Mr. Brown by still further emphasizing what has just been said. This committee of the Department of Business Education was authorized three years ago, at which time it asked for an appropriation. If the Department of Business Education is to be placed secondary to committees from half a dozen other departments that may possibly overlap, I should like to inquire, What is the use in having a Department of Business Education at all?

MR. BROWN: The Commission on the Reorganization of Secondary Education has a subcommittee on commercial work. Thus we have two committees covering the same

ground, and we have a duplication of work which cannot be defended. It is not the purpose of the Executive Committee to discourage the commercial work, and I am sure that the chairman of the Commission on the Reorganization of Secondary Education will see that commercial education is properly recognized.

PRESIDENT SWAIN: I understand the meaning of Mr. McKinney's motion to be: It is desired that this committee be still considered, and that the Executive Committee, if it has the funds for the purpose, be given the power to make an appropriation.

MR. MCKINNEY: That was my motion.

PRESIDENT SWAIN: The Chair sees no objection to this motion. All in favor will please say, "Aye." Contrary, "No." The "Ayes" have it.

Those in favor of adopting the report of the Executive Committee as amended will please say, "Aye." Contrary, "No." The report is accepted.

We will pass to the next order of business, the Report of the Board of Trustees.

MR. BROWN: Mr. President, and members of the Association: The report of the Board of Trustees has been distributed and you probably have it in your hands at this time. It has been acted upon by the Board of Directors and has been approved. I think, Mr. Chairman, there is no further statement necessary.

PRESIDENT SWAIN: The Chair understands no action is necessary except that this report be received and filed and approved. Is there a motion to that effect?

MR. FAIRCHILD: I move you that the report be approved and filed.

This was duly seconded and carried.

PRESIDENT SWAIN: The next item in the order of business is the report of the Treasurer.

GRACE M. SHEPHERD, of Idaho: Mr. President, and members: You have my report, and I move its adoption.

This was duly seconded and carried.

PRESIDENT SWAIN: The report of the Secretary is now in order.

SECRETARY SPRINGER: As the report of the Secretary is made up largely of details and suggestions, none of which are to be carried out at this time, and as it will appear in the *Yearbook*, I suggest that we pass the reading of it. You will all get the printed report later.

PRESIDENT SWAIN: There is no action needed. If there are no questions, we will pass to the next order of business, the report of the Committee on Nominations.

As this is a unanimous report, I wish to move the election of the persons named therein.

This was duly seconded and carried.

MISS HALEY: Before the vote is put, I should like to ask the chairman of that committee what is the number of women directors out of that whole number. I tried to count, and I think there were four. Am I right?

PRESIDENT SWAIN: There are four. All in favor of the motion will please say, "Aye." Contrary, "No." It is so ordered.

We will now have the report of the Committee on Resolutions.

MR. THOMPSON (reads the report as it involves the "Declaration of Principles" which is printed later):

PRESIDENT SWAIN: You have heard the report. What is your pleasure?

ACTIVE MEMBER: I move its adoption.

This was duly seconded.

W. N. SHEATS, of Florida: I should like an explanation of one phrase of that admirable report. I do not understand that phrase "political equality."

MR. THOMPSON: I should like to say for the benefit of the gentleman that any man who doesn't understand the phrase "political equality" is in the kindergarten of American politics.

MR. SHEATS: I am glad to note that the gentleman was fully conscious of that phrase. I am not overawed, because I come from a section of the country where we think differently about these things. I do not see why we should make this National Education Association sponsor for this woman's suffrage movement. If you have to do that, why don't you come out openly and boldly and not hide it in that kind of way? I want to enter my protest, because I come from a section of the country where two-thirds of the women do not think it necessary that they should vote in order to protect their interests and get their rights.

MR. THOMPSON: I beg to say that the right of protest is sacred, but the manner in which the gentleman has expressed himself indicates a lack of intelligence on this matter. I desire to state now that this question has not been dragged in. Every part of this report is open and above board. The reason for putting it in was that, in the judgment of the committee, the political equality of the sexes is the outcome of our democratic theory of education. I want to say further that this is in no way hitched up with any movement, but is a declaration of principle or belief. This Association may do with it as it likes. But I want to resent any conception that this is put in in an obscure place.

MISS HALEY: I rise to a point of order. This discussion is out of order. This Association is already on record in favor of political equality of the sexes. It went on record in 1912 at Chicago, and until it recedes from that position the resolutions today are simply reaffirming that position.

PRESIDENT SWAIN: Are you ready for the question?

MISS HALEY: I have a question I wish to ask. I am delighted with the report; I am not rising to criticize, but for the purpose of securing information. There is a bill referred to, a prospective bill, being introduced, as I understand, in Congress. I should like to ask the chairman of the committee if that bill is written or printed, and, if so, if it is before the House and is contained in any official document available for the members.

MR. THOMPSON: The story of vocational education goes no farther back than the Page Bill, and I think it is familiar to all members of this Association. The Page Bill was substituted by a new bill introduced in the present session of Congress including the principle of federal aid to vocational education. The committee was appointed by the President of the United States, and its report was to be ready by the first of June. It has not yet arrived, but we have been told that the bill already introduced will be recast and introduced in the next session of Congress in accordance with the principle. The Committee on Resolutions did not, therefore, indorse a particular bill, but did recommend here the indorsement of the principle of federal aid to vocational education. It does not, therefore, ask the Association to commit itself to the administrative details of any of these bills, and leaves it for this Association and other educational institutions to debate the details. This applies only to the fundamental principle of these bills.

MISS HALEY: A question of information. I think the explanation is quite clear, but it seems to me that, as the resolution was read, it is possible for people who may be interested to do so—if that bill should not come out in the form of which we approve and should not include these principles—to construe the language of that resolution into an approval of that bill before it is drafted. I should like to have the chairman of the Committee on Resolutions make the language of that part of the resolution so clear that it may be perfectly certain that we are not indorsing a bill which has not yet been drawn.

MR. THOMPSON: The Association indorses the principle of federal aid for vocational education as provided in a bill soon to be printed. We do not indorse a specific bill. Thus far I think the Association ought to go. If it is not clearly expressed, I should like to have it made so.

ARTHUR C. MONAHAN, of District of Columbia: A bill was introduced in Congress by Senator Smith, and we have understood that to be the bill which included the recommendation of this committee of the President.

MR. THOMPSON: You understand, of course, that there will be a new Congress elected next fall and all bills will have to be reintroduced. Bills die with the death of Congress; and when the new Congress assembles this bill will then be reintroduced with the recommendation that the committee appointed by the President shall name.

MR. MONAHAN: The present Congress dies when?

MR. THOMPSON: Next March.

MR. MONAHAN: The bill is already before Congress. It is a question now whether we are going to indorse the bill already before Congress or some new bill to be introduced.

MR. THOMPSON: This resolution is not supporting any particular bill, and we understand, of course, that nothing will be done by this Congress.

MR. MONAHAN: It seems that there is just a question of wording there.

MR. THOMPSON: Introducing and incorporating the principle of federal aid.

MAXIMILIAN P. E. GROSZMANN, of New Jersey: I think the point Miss Haley made is very well taken. The resolution can be easily remedied by striking out the words "as incorporated in a bill soon to be presented."

PRESIDENT SWAIN: If that is acceptable to the chairman, it will be stricken out.

MR. THOMPSON: It is acceptable.

DAVID E. CLOYD, of Iowa: I want to ask for the reading of the resolution requiring surveys to be made thru state bureaus.

MR. THOMPSON (reading):

A most cordial invitation is extended to all interested in the cause of education to investigate the work of the schools and to present constructive criticism both of methods and of results. A destructive criticism from irresponsible sources can never build a system of education. The Association believes it represents the common judgment of the teachers of the country in declaring that all official investigations of education should be made thru the properly constituted authorities responsible to the people, and that the United States Bureau of Education is the logical and natural agency thru which the people should provide such investigation. Where private agencies or foundations are utilized for such purposes, they should be held directly responsible to the regularly established authorities in charge of public education for their methods of procedure and reports.

MR. CLOYD: May I ask if that is intended to include investigations of private educational institutions?

MR. THOMPSON: No, sir. This includes institutions of a public nature. It puts the responsible control for an investigation of public education with the national agency in charge of education.

MR. CLOYD: May I make an amendment to that resolution?

PRESIDENT SWAIN: Make your amendment.

MR. CLOYD: I move to add: "Appropriations made to educational work within any state by educational foundations, operating under charter, must be made thru the properly constituted educational commission in that state."

PRESIDENT SWAIN: The Chair hears no second.

MR. THOMPSON: I see the point in that amendment, but it is outside of the vision of the committee. The committee did not undertake to direct what private institutions should do, but it undertook to state what the people should do. They should regulate their own agencies, and operate thru them. Any private individual or corporation may do business as it pleases, and, in this report, I do not think we ought to undertake to direct any private agency how to spend its money or conduct its affairs.

MR. CLOYD: That is just exactly what the resolution does do. It says that the investigation of school systems shall be directed by public state officials. In this amendment we provide that no discrimination is permitted by these outside institutions

operating within the state. We ask that all outside influence coming thru chartered organizations be thru a state commission.

SAMUEL H. THOMPSON, of Tennessee: I do not wish to let go unchallenged the statement made by Mr. Sheats about woman's suffrage in the South. I come from Tennessee. It may be that he represents the Old South, and that I represent the New South, but I rather think, if a vote were taken in seven or eight states of the South, that two-thirds of the vote would come more nearly favoring this proposition.

PRESIDENT SWAIN: I shall ask the gentleman from Iowa to state his motion again.

MR. CLOYD: Following the resolution read there, I move to add these words: "And that all appropriations of money by educational foundations operating under charter be distributed for educational purposes in a state thru a properly constituted educational commission within that state."

CARROLL G. PEARSE, of Wisconsin: I rise for information: Does the motion made by the gentleman from Iowa embrace aid to private institutions within the state and public institutions within the state?

MR. CLOYD: I mean anything that follows—a state educational system, or a private educational institution, or a denominational educational institution: they are all a part of the state system.

ACTIVE MEMBER: One other question. The author of this amendment says the "properly constituted educational commission." Does that mean a properly constituted educational commission appointed by state authority? If so, it ought to say so.

MR. CLOYD: I said, "properly constituted state commission of education."

MR. PEARSE: That might be appointed by the state officials or state authorities, and it might be a state educational institution appointed by private agencies.

ACTIVE MEMBER: I move the amendment be laid on the table.

This was duly seconded.

MR. CLOYD: I should like to move as a substitute to the amendment that the original resolution be omitted from this series of resolutions.

PRESIDENT SWAIN: The question of laying on the table is not debatable. We will vote upon that question. All in favor will please say, "Aye." Contrary, the same. It is so ordered.

J. A. C. CHANDLER, of Virginia: I move you that we strike out from the resolution the clause relating to the educational surveys and the appropriations. We are not ready to declare ourselves on that point. We have a very able body of resolutions, and it is not necessary for us in this matter to adopt a resolution on all subjects.

This was duly seconded.

PRESIDENT SWAIN: We will have a part of the report read so we may be clear as to what the motion refers to.

(Reading of the Resolution.)

T. MARCELLUS MARSHALL, of West Virginia: May I ask utilized by whom?

PRESIDENT SWAIN: Utilized in any state by the educational activities there.

MR. CHANDLER: As a matter of fact, institutions will sometimes invite investigations the result of which may determine state policies. These have been made in a more or less unofficial way. This resolution provides that professional investigations should be made only by public agencies or by people responsible to them.

MR. MARSHALL: If these private foundations care to investigate for private ends, they have a right to do it without interference, but if they are aided by the state or by the United States, then I agree with the resolution. Otherwise I should like to have it stricken out, or amended to indicate the definite authorities to which it relates, whether state or national. I think it is ambiguous as it is.

MR. THOMPSON: The statement may be ambiguous, but the chairman assumed that each one of us has the right to investigate matters in which he is interested. That

right is as sacred as the Constitution itself. There wants to be no limitation upon that. We are dealing here with public questions.

GRACE C. STRACHAN, of New York: I want to move, as an amendment to Mr. Chandler's motion, that all of this resolution after the word "people" be stricken out.

MR. CHANDLER: I will accept that amendment.

PRESIDENT SWAIN: All those in favor of the motion will please rise. Those opposed will please rise. The motion is lost.

MR. MARSHALL: I move to strike out the last sentence.

PRESIDENT SWAIN: There is no second to that motion. I think that is a part of the motion which has been defeated.

MR. KINGSLEY: I desire to make a motion to strike out all of that part with reference to investigations. I do not believe that this Association is competent at this time to deal with the many problems involved. Every locality has its own problem, and I shall make a motion as soon as we dispose of the report.

KATE DEVEREUX BLAKE, of New York: I second the motion for the reason that I believe this motion to a certain extent aims to limit these surveys. Our schools of this country, I believe, are so well administered, and so finely worked, that we need fear no investigation of any kind or character, and I believe the people of this country will stand for an investigation in the right spirit. We have had an investigation in New York City, and it hasn't done any harm. We have lived thru it, and, to a certain extent, have benefited by it. I believe in no limitations upon effort that can by any chance improve the schools.

JOHN R. KIRK, of Missouri: I should like to ask Miss Blake whether the investigation in New York was not by public authority, and therefore in harmony with this resolution.

MISS BLAKE: It was.

MISS HALEY: A point of order. This has been before us and it was tabled.

PRESIDENT SWAIN: The Chair rules that this is in order.

MR. CLOYD: If the National Education Association of the United States is not competent to say how educational surveys shall be conducted in the United States, what other organization is more competent?

ACTIVE MEMBER: I move you to lay Mr. Kingsley's motion on the table. This was duly seconded.

PRESIDENT SWAIN: This question is not debatable. All those in favor of the motion will please say, "Aye." Opposed, "No." So ordered.

The question now reverts to the adoption of the report. Are you ready for the question?

All in favor of adopting the report as amended will please say, "Aye." Contrary, "No." The report is adopted as follows:

DECLARATION OF PRINCIPLES

The Committee on Resolutions presents the following report for consideration and action as a message to the teachers and citizens of the country.

The Association views with great satisfaction the genuine progress being made in the cause of education as manifested in the wider public interest, the better equipment of school properties, the increased attention to the preparation of teachers, the wider range of study and inquiry, and the deepening interest on the part of teachers in the welfare of children and in the society for which the children are in preparation. The Association expresses its belief in the efficacy of a system of public education wisely adapted from time to time to the needs of our growing democracy and calls upon the citizens of our country to respond with increasing loyalty to the interests of the children by ample provision for the needs of the public school. Attention is called to the close relation between the home and the school in any complete view of society and the Association expresses its abiding interest in the maintenance of the American home in its integrity as the foundation of all educational and social progress, and declares its belief that the American home and the

system of American public schools constitute the most important bulwark of our democracy. A most cordial invitation is extended to all interested in the cause of education to investigate the work of the schools and to present constructive criticism both of methods and of results. A destructive criticism from irresponsible sources can never build a system of education. The Association believes it represents the common judgment of the teachers of the country in declaring that all official investigations of education should be made thru the properly constituted authorities responsible to the people, and that the United States Bureau of Education is the logical and natural agency thru which the people should provide such investigation. Where private agencies or foundations are utilized for such purposes, they should be held directly responsible to the regularly established authorities in charge of public education for their methods of procedure and reports.

The Association records with satisfaction the attitude of the public toward the progress in the simplification of our spelling as shown by the action of educational institutions in adopting the forms in use by the National Education Association.

There are certain important conditions in the nation's system of schools requiring repeated emphasis. Concerning the physical provision for schools, the Association renews its oft-repeated statement in favor of safety, sanitation, and proper provision for heat, light, and ventilation in all schools, and directs attention to the importance of competent professional advice, and indorses legislation safeguarding the plans, contracts, construction, and equipment of school buildings.

The public-school system should be recognized as including legitimately all that makes for the education of the community and increases the social, civic, and economic efficiency of the individual, whether child or adult. The Association desires to encourage the larger use by the community of the school plant for all educational, social, and recreational activities. It commends the extended use of school facilities thru continuation classes, enabling employees in mercantile or manufacturing establishments to increase their efficiency both in their vocations and in their community relations. Progress already made in these particulars thru sympathetic co-operation of employers is most gratifying. The development of recreative activities and the wider use of play in the system of education call for larger playgrounds. Consideration of these needs is earnestly suggested to the school authorities of the country. The Association directs attention to the value of utilizing Arbor Day, now commonly observed, as a suitable occasion for creating sentiment in favor of the beautifying of school grounds both in the city and in the open country. The day might well be used with suitable programs discussing the beautification of the cities, the betterment of rural-life ideals, the development of school gardens, the motives in preserving forests, and in making the surroundings of education beautiful and attractive. Attention might well be directed also to the development of proper ideals concerning thrift and concerning labor and community industry.

The Association, recognizing the place of the teacher in our system of education, declares its belief that salaries should be increased and adjusted to the standards of living required of American teachers; to the demands for professional education and improvement by study and travel; and to the standards of teaching efficiency demanded both by the needs of the schools and by public sentiment. The Association, recognizing the importance of the education and training of teachers in the profession as well as for it, approves an intelligent, sympathetic, and careful supervision of teachers in the rural schools. The attention of the country is directed to the beneficent effects following the establishment of a system of teachers' pensions in many parts of the country, and the extension of the system as rapidly as possible is most cordially commended. Experience has demonstrated that sound economy underlies a sabbatical year's leave of absence for travel and study in many of the institutions of higher learning. The plan is commended to public-school authorities with a recommendation that at least half-pay be provided. Attention is also directed to the obvious fact that the great majority of the teachers in our public schools are women, and that this situation, as well as the interests involved, requires a larger representation of women in the offices of superintendent and principal and on boards of education. The Association regards efficiency and merit, rather than sex, as the principle on which appointments and selections should be made, and therefore declares itself in favor of the political equality of the sexes and equal pay for equal services. A democratic system of education recognizes merit and fitness as the supreme tests for public service.

There are certain important movements in education to which the Association would direct attention.

1. The National Education Association views with great satisfaction the increasing tendency to settle international differences by means of arbitration and cordially approves the efforts of the President of the United States and the Secretary of State in this direction. The Association commends the moral self-restraint on the part of the President of the United States in dealing with the Mexican situation and indorses heartily his policy that

the United States does not aim at territorial aggrandizement. The Association expresses deep interest in the celebration of one hundred years of peace between the United States and Great Britain to begin on Christmas Eve, 1914, the anniversary of the signing of the Treaty of Ghent, and urges the public schools to make suitable recognition of this gratifying history. The Association continues its approval of the American School Peace League, the organization of Peace Leagues, the observance of Peace Day, May 18, and the dissemination of Peace Literature.

2. Foreign Relations: The Association, recognizing the growing importance of amicable relations with foreign countries and the importance of education as the basis for a proper sentiment concerning these relations, recommends that a committee of five to serve without expense to the Association be appointed to investigate and report upon the desirability of introducing into the school materials and methods intended to educate the children in an intelligent and sympathetic understanding of foreign affairs. The Association calls the attention of colleges and universities to the opportunities for advanced work in such subjects.

3. The Association directs attention to the satisfactory results reached in the matter of physical inspection of children for health purposes. The sympathetic services of professionally educated nurses have commended the physical inspection of children in our public schools to parents generally. The supervision of this work by competent physicians has proved eminently satisfactory. The extension of this newer form of increasing efficiency in the schools to the field of dentistry is regarded with favor and approval. The Association, therefore, expresses its commendation and approval of such inspection and its belief that a complete justification for this work will be found in the increased efficiency of expenditures, in the conservation of health, and in the greater capacity of the child to utilize the offered education.

4. Vocational Education: The Association, reaffirming its former declarations upon industrial and vocational education as a phase of the general education needed in a democracy, and commending the principle of vocational guidance under competent leaders, would declare itself in favor of a nation-wide system. The Association indorses the principle of federal aid for vocational education. The Association views with disfavor any proposal of a parallel system of schools exclusively for the trades and industries at public expense, but favors a comprehensive, unified system of public education, including all types and forms under the single administration of the constituted authorities in charge of the public schools. The Association expresses its belief that a national system of vocational education, supported by funds from the nation, the state, and the local community, is an urgent need, is based upon sound economic reasons, and is in response to a public demand that should have prompt attention from legislative authorities.

5. Sex Hygiene: The Association, reaffirming its belief in the constructive value of education in sex hygiene, directs attention to the grave dangers, ethical and social, arising out of a sex consciousness, stimulated by undue emphasis upon sex problems and relations. The situation is so serious as to render neglect hazardous. The Association urges upon all parents the obvious duty of parental care and instruction in such matters and directs attention to the mistake of leaving such problems exclusively to the school. The Association believes that sex hygiene should be approached in the public schools conservatively under the direction of persons qualified by scientific training and teaching experience in order to assure a safe moral point of view. The Association, therefore, recommends that institutions preparing teachers give attention to such subjects as would qualify for instruction in the general field of morals as well as in the particular field of sex hygiene.

6. National University: The Association expresses to the Congress of the United States and to the country its profound conviction upon the vital importance of education in sustaining and perpetuating a democracy. In any complete scheme the place and function of the university is obvious. The principle of federal aid to education is most cordially indorsed. The Association reaffirms its former declarations favoring a National University at public expense and under public control. The national system of colleges of agriculture and mechanic arts fostered by federal and state aid, together with the state universities supported at public expense, has reached a stage in development warranting the next step, namely, the completion of the system of public education by a National University. This University should be distinctly of a graduate character, devoted to research and investigation, not paralleling but supplementing and co-operating with all other agencies for higher education in the advancement of learning, the promotion of science, and the development of the highest scholarship. The Association recommends that state and local organizations interested in public education bring this subject to the attention of their congressmen.

7. The Association approves a standard version of our National Songs as reported by the Department of Music Education in 1912 and presents to the Bureau of Education

thru the Honorable Secretary of the Interior a request that an official version be authorized for use in schools.

8. The Association indorses and approves the plan of a larger unit in school organization and administration. It believes that the logic of events as well as considerations of economy and efficiency will displace the small district and recognize the county as the natural unit of administration supervising the township, groups of townships, or such other geographical divisions as would be suggested by community convenience.

9. The Association records with gratitude its appreciation of the services rendered the cause of education by the Bureau of Education and expresses its hope that the work may be enlarged and strengthened. This Association records its judgment that all the distinctly educational work of the federal government should be centered in and administered by the United States Bureau of Education and urges sufficient funds to enable it to become an effective clearing-house for accurate information in regard to all phases of education and all educational agencies in this and all other countries and an official source of information on the problems of education in the several states and countries. Well-defined authority should be given the Bureau to enable a desirable co-operation with state and local educational authorities in improving educational conditions. To this end the Association recommends to the Congress of the United States thru the Honorable Secretary of the Interior an annual appropriation of not less than five hundred thousand dollars. The Association also recommends that a committee of seven be appointed by this Association to assist in obtaining funds for the Bureau and to co-operate with the Bureau in extending its work in harmony with the purposes for which it was established.

HOMER H. SEERLEY

President, Iowa State Teachers College, Cedar Falls, Iowa

PRESIDENT SWAIN: We shall now pass to the next order of business. First, I believe there is an additional report from the chairman of the Committee on Resolutions.

MR. THOMPSON (reading):

Resolved, That we, the members of the National Education Association, do hereby express our most sincere and grateful appreciation of the hospitality of the city of St. Paul to the Association during this meeting. Our thanks are hereby expressed to the governor of the state thru his representative the lieutenant-governor, to the mayor of the city, and

to the superintendent of schools for their cordial official welcome; to the teachers and citizens for their welcome and considerate attention to the comfort and convenience of visiting teachers; to the Committee of Arrangements for its efficient and courteous attention to the innumerable details made necessary by the needs of the Association and for its intelligent co-operation with the officials of the Association. We recognize with thanks and appreciation the courteous services of the press of the city and the state, and the service rendered by the Associated Press and the United Press in giving nation-wide publicity to the proceedings of the meeting. We also express our appreciation of the musical entertainments provided by the committee thru the agencies of the public schools and for the Schubert Complimentary Concert so much enjoyed by an appreciative audience. We express our thanks to the Commercial and Civic Clubs for their open hospitality to members of the Association. The Association congratulates the city of St. Paul upon the abundant provision made for the meeting, and our thanks are extended to all who in any degree contributed to the pleasure and success of the meeting.

I move you the adoption of these resolutions by a rising vote.

ACTIVE MEMBER: I should like to ask about the Boy Scouts.

MR. THOMPSON: I shall be very glad to insert that.

PRESIDENT SWAIN: All in favor of the resolutions will please rise. Contrary? It is carried unanimously.

MR. THOMPSON: Here is another resolution:

Resolved, That this Association recognizes with high appreciation the intelligent and devoted services of President Swain in administering the duties of his office for the year now closing. His grasp of the problems before the Association; his sympathetic co-operation with officials; the dignity and grace with which he has presided at the meetings; his attention to every detail of the program; and the unmeasured use of his time have won for him the admiration and respect of all interested in these meetings. The Association thanks him most cordially for his service and wishes him abundance of honor in his future career.

Anyone not in favor of this resolution will remain seated.

The motion was carried unanimously.

JAMES Y. JOYNER, of North Carolina: I understand the Committee on Resolutions has completed its report. Mr. Chairman, while it may not be in order, I know that resolutions should usually go thru the channel of the Committee of Resolutions, and yet there is one resolution that I am sure will be unanimously indorsed that cannot go thru that committee. Comparisons are invidious, and I shall make no comparison, but I was much impressed as I heard those resolutions read, and I believe this is the ablest set of resolutions that I have ever heard read before this body. I desire, therefore, to move the thanks of this body be returned to the chairman and the members of the Committee of Resolutions for the careful, thoughtful, and able preparation of this Declaration of Principles which has been adopted here.

While I am on my feet, just one other word. I think we ought also to appreciate the courage and honesty of my associate, the state superintendent from the South, in expressing to us very candidly his views upon one of these resolutions. It was very evident that there is a division of sentiment upon that question. If that Declaration of Principle had purported to bind any state in its own expression and control of this question, then I should have been with my friend from Florida. I think the position of the President of the United States is all right on that. I understand this, however, to be a general resolution which this body has a right to make and in which everybody will defer to the majority.

PRESIDENT SWAIN: There is a motion before the house which is seconded. All in favor of the motion will say, "Aye." Contrary, "No." It is unanimous.

MR. SHEATS: I want to explain myself. I have no objection to woman's suffrage in any state where it is wanted. Whenever the women, the majority of the good women—the mothers, the intelligent women of my state—want it, they shall have it. I agree with President Wilson; it is a state question and I see no reason for dragging it in here.

PRESIDENT SWAIN: The report of the Committee on By-Laws.

MR. PEARSE: The committee has been unable to meet this year. We have tried to have meetings two or three times, but Thomas H. Harris, of Louisiana, has been detained at home by illness, or the legislature, or other calamities, so that he has not been able to meet at all, and the committee, lacking direction, has not been able to deliberate on all matters as it should. However, I present this report (reads the first section of the report):

Your committee appointed to consider recommendations concerning changes in the by-laws has had in consideration amendments proposed by J. Y. Gillan, of Wisconsin, providing for the recall of certain officers of the Association. Your committee is of the opinion that such a provision is not likely to be required and recommends that it be not adopted.

I move the adoption of this section of the report.

This motion was duly seconded and carried.

MR. PEARSE (reads the second section of the report):

Your committee has briefly considered the proposed amendment introduced by D. B. Johnson, of South Carolina, which amendment is to be found on p. 66 of the *Yearbook* for 1913.

The members of your committee regret that, owing to an unfortunate accident, they have been unable to confer upon this proposed amendment in such manner as to give it due consideration. We are agreed that some change in the method of voting is desirable, but are not prepared to recommend the particular plan suggested. We recommend, therefore, that the subject-matter of the resolution be re-referred for further consideration at the next annual meeting.

I move the adoption of this section of the report.

This motion was duly seconded and carried.

MR. PEARSE (reads the third section of the report):

Your committee, appointed two years ago, and continued one year ago, to consider making recommendations concerning certain proposed by-laws, desires to report as follows:

The majority of your committee is of the opinion, as stated one year ago, that all meetings of the departments, except those of the Department of Superintendence, should be held at the time of the annual meeting of this Association.

We have further consulted with officials of the National Council of Education and have decided to report as follows:

1. That Section 3 of Article V read: "Each department shall hold its annual meeting at the time and place of the annual meeting of the Association, except the Department of Superintendence, which may hold its annual meeting in February of each year, or at such other time as may be determined by said department, subject to the approval of the Board of Directors of the Association."

2. That action on the proposed by-law relating to the time of the meeting of the National Council of Education be re-referred to the same committee for report and action at the next annual meeting.

I move the adoption of this section of the report.

This was seconded.

MR. MARSHALL: I do not see why this matter which has already been two years before the committee should be referred to it again. I am perfectly frank to confess that I do not see why the Council should meet at some time other than the time of the meeting of the general Association. I would move to strike out that part of the report.

MISS HALEY: Is it that part of the report which is to be re-referred?

PRESIDENT SWAIN: For one year.

C. A. DUNIWAY, of Wyoming: I should like information. As I understand the report, the amended by-laws will prohibit departments, other than the Department of Superintendence, from holding meetings apart from the summer meeting of the Association. Is that right?

MR. PEARSE (reads Section 3 of Article V again).

MR. DUNIWAY: It is clear, then, that the report prohibits the holding of the annual meeting of any department at any time other than at the time of the summer meeting of the Association. I cannot let that statement pass without calling attention to the action

taken, after three years of deliberation, by the Department of Higher Education. After an extensive investigation as to what would best serve the needs of the men and women in the Department of Higher Education, that department voted yesterday that its annual meeting should be held in winter, preferably in connection with the meeting of the Department of Superintendence. The adoption of this motion would prohibit that action. Representing, therefore, not my own opinion, but that of a department, I believe that the adoption of this by-law would be unfortunate. I think it would be to the interest of the Department of Higher Education to amend the report so that that department, as well as the Department of Superintendence, may hold annual meetings in midwinter.

ACTIVE MEMBER: I second that amendment.

MR. PEARSE: I think an explanation is due in the light of this amendment. I had no knowledge of the fact that such action had been taken by the Department of Higher Education. There is, however, no surprise felt by me that such action has been taken. Similar action has been taken in times past by other departments. Your committee, after deliberating upon this matter, is of the opinion that, if the other departments ask the Association to meet at different times and not with the general Association, a process of disintegration will likely follow, resulting eventually in turning this summer meeting into a very different sort of thing from what it should be. The National Education Association is a great institution. It is a great Association because not only the elementary departments, and the Department of Special Education, and other departments meet together, but also because the members of the Department of Higher Education and the Department of Normal Schools, and other departments in which the strong men of the Association are interested come to these meetings. I, as one of the members of the Committee on By-Laws, believe that the departments of this Association ought to meet with the general body.

G. W. A. LUCKEY, of Nebraska: I should like to support the amendment of President Duniway. It seems to me that this report is, in the main, a good thing, but I believe it would be better to defer the whole matter until we can study the effect it would have upon the different departments.

A. J. MATTHEWS, of Arizona: I do not favor this report. This meeting comes at a time of the year when most of the college men are held at home on account of summer schools. It is desirable, I think, that we have the college men here, and yet it is also desirable that they should be permitted to have a meeting when they can attend, and it would be well to arrange to let them have a meeting in connection with the Department of Superintendence. If we get the college men interested in public education, whether it is at a superintendents' meeting or at this meeting, it is a good thing, and it seems to me that this amendment should pass.

MISS HALEY: There is no proposition before the National Education Association to change the time of the annual meeting of the National Council of Education. The Council expects to continue to hold its annual meeting with the National Education Association. It has had, for several years, a second meeting in connection with the meeting of the Department of Superintendence.

AGNES E. DOHERTY, of Minnesota: Has any separate meeting of this department ever been held or has it always met at the time of the summer meeting?

MR. DUNIWAY: I cannot fully answer the question. I know the history only of the last half-dozen years. It has always met in connection with the summer meeting. Three years ago a committee was appointed to consider what date would give the best result, and that committee has reported. The question has been upon the table for a year, but it was taken up and discussed this year and it was decided that we desire to meet annually in February.

PRESIDENT SWAIN: The Chair understands the meaning of the motion made by President Duniway to be that the decision in regard to the time of meeting of the Department of Higher Education be deferred for one year.

MISS DOHERTY: We are facing exactly the same problem in our state association. Whatever action is taken by the National Education Association has always great influence in the various state associations. In our state association here in Minnesota, there is a desire for the various departments to meet by themselves and apart from the annual meeting of the association. We think it is a tendency to be deplored. The classroom teachers are very anxious to keep in touch with the Department of Normal Schools and with the Department of Higher Education, and with all other departments, and I wish to speak for the classroom teacher.

MR. JOYNER: Mr. Chairman, I see no necessity of this amendment.

MR. DUNIWAY: May I say that action was taken at the meeting of the Department of Higher Education directing the new officers to arrange for a meeting in February. If this by-law prevails at this time, it will act as a prohibition, while, if action is deferred, the February meeting, already provided for by the department, may be held.

MISS DOHERTY: A request for information. How are these separate meetings of departments to be financed? If these departmental meetings are held in February, are they to be financed from the treasury of this Association?

PRESIDENT SWAIN: I will ask the Secretary to say whether or not the meetings that have been held in February are held at extra expense to this Association.

SECRETARY SPRINGER: The department of Normal Schools has been having two meetings a year. The annual meeting has been held in the summer, with an extra meeting at the time of the meeting of the Department of Superintendence. It has had the regular appropriation of \$25.00, the same as any other department, and it has devoted a part of it to the winter meeting and part of it to the summer meeting. The Council has also had two meetings, one in the winter and one in the summer, the summer meeting being the annual meeting. The appropriation of \$25.00 has covered the expense of both meetings. It is also true that the expense of the meeting of the Department of Superintendence has been more than covered from the income which we received from adjacent territory in the shape of associate memberships.

MR. JOYNER: I will say that there is no use for any amendment. If the department desires to have an additional meeting in February in connection with the meeting of the Department of Superintendence and other departments which have additional meetings at that time, I have no objection. But if the purpose is to commit this Association thru that amendment to allowing the annual meeting of these various departments to be held in midwinter, I am opposed to it. You see what this precedent would lead to. Already there comes another request of that sort from a very important department here. My own idea is that the wisest thing to do is to adopt the report of the committee and to say to the Department of Higher Education that if it wishes to have an additional meeting without any expense to this Association, it may have the privilege, but such meeting is not the annual meeting. The purpose of this midsummer meeting is a get-together meeting of all our educational departments in this country.

A great difficulty in our various states is the lack of co-operation between workers in the various departments of education. We are all aiming at the same thing, and the central idea of the midsummer meetings is that representatives of all phases of education in this country may be present in order that we may bring about co-operation and unity instead of separation and conflict.

MR. DUNIWAY: The Department of Higher Education has already had its meeting. I see no harm in deferring definite action at this time. Perhaps the department went farther in its action than it should have gone. For twenty-five years I have been an active member, and during that time have missed only three meetings. For twenty years I have been working in this department, which has never been very large. I feel that the colleges ought to be represented in this Association, but you cannot dictate to the college men. I believe it would be wiser for us to leave this matter on the table for a year.

MR. JOYNER: My understanding of the matter is that, without any action, it is deferred until next year. Therefore there is no use of any amendment at this time.

MR. DUNIWAY: No. By the report, action with reference to the Council only is to be deferred. If there is a permanent policy of this Association that all departments shall meet in the summer, well and good. I have nothing to say against that. But this department has had the question of a change in time of meeting before a committee for three years, has submitted the matter by a referendum to the college people, and they were unanimously agreed on February. Believing we had the right to do so, we voted yesterday to hold our annual meeting in February. This Association may veto that action. Do you want to do it keenly and sharply enough to say that the vote taken yesterday shall not be carried out, or are you willing, in accordance with my amendment, to defer action for one year?

P. P. CLAXTON, of District of Columbia: I have only one suggestion to make and that is that the next meeting of this Association will probably be in the latter half of August and not in July when the summer schools are in session. It will probably be held from August 16 to 27 in Oakland, Cal., and will be immediately followed by a meeting of the National Association of State Universities. It will probably be held as an international education association, to which educators representing all phases of education will be invited from all parts of the world. It would be peculiarly unfortunate if higher education should not be adequately and fully represented at that meeting. I do not care to discuss the amendment, but I believe these probabilities should be kept in mind when making a decision which might mean a meeting of the Department of Higher Education in February and no meeting of that department at Oakland.

FRANCES E. HARDEN, of Illinois: A question of information. Has a department of this organization any right to change its time of annual meeting without the consent of the body?

PRESIDENT SWAIN: It has not. May I say one word here? No department has a right to have its annual meeting at any other time than the annual meeting of this Association, except the Department of Superintendence.

ACTIVE MEMBER: As I understand President Duniway, the chief reason for changing the time of meeting is that the college men are busy with the summer schools. How are we to suppose that they are not busy in February with their winter schools?

MISS STRACHAN: Several speakers have made reference to summer schools which might lead us to suppose that the summer schools were of interest only to those engaged in higher education. Now we all know that there are thousands of teachers engaged in the so-called lower education, who are busy now in the summer-school work, and they might be just as pleased to meet in February. I know from experience that those who hold positions as grade teachers and principals of grade schools find it impossible to get away during February to attend any convention. I think if we make an exception for the department which is asking the exception, we will make a mistake. As Mr. Joyner has so well said, we all want to get together at one general meeting.

MISS HALEY: A point of order: This matter is out of order. We cannot properly consider it. An amendment to the by-laws must be submitted in the regular way. The constitution provides for the means by which that department may settle that question without bringing it here. On recommendation of the department and the approval of the Board of Directors, that department may change the time of its meeting.

MR. DUNIWAY: May I be permitted to cut it all out, offer an apology, withdraw, and say we will be good?

PRESIDENT SWAIN: All in favor of adopting the third section of the report will say, "Aye." Contrary, "No." It is carried.

MR. PEARSE (reads the first part of the fourth section of the report):

Your committee to whom were referred certain changes in the by-laws desires to report as follows:

1. That Section 4 of Article I be allowed to remain as at present.
Your committee believes that the teachers generally would prefer that November 1 rather than October 1 be the time limit for paying annual dues.

I move the adoption of this part of the report.

This was duly seconded and carried.

MR. PEARSE (reads the second part of the fourth section of the report):

2. Having read carefully the Articles of Incorporation, your committee is of the opinion that the proposed amendment to Section 1 of Article II is in conflict with the Articles of Incorporation, and we recommend that it be not adopted. For the same reason your committee recommends that the proposed regulation requiring the new Board of Directors to meet within twenty-four hours after the close of the annual business meeting be not adopted.

I move the adoption of this part of the report.

This was duly seconded and carried.

MR. PEARSE (reads the third part of the fourth section of the report):

3. That the name of the Child Study Department in Section 1 of Article V be changed to "Department of Child Hygiene."

I move the adoption of this part of the report.

This was duly seconded and carried.

MR. PEARSE (reads the fourth part of the fourth section of the report):

4. That the following sentences be added to Section 5 of Article V of the by-laws: "In case there is a vacancy in the office of president of any of the departments, it shall be filled by an appointment made by the President of the Association. Any other departmental vacancy shall be filled by appointment made by the president of the department."

I move the adoption of this part of the report.

This was duly seconded and carried.

MR. PEARSE (reads the fifth part of the fourth section of the report):

5. That after the word "Association," in the first line of Section 1 of Article VI, there be inserted the words, "unless appointment has already been made."

I move the adoption of this part of the report.

This was duly seconded and carried.

MR. PEARSE (reads the sixth part of the fourth section of the report):

6. That the proposed amendment to the by-laws to the effect that the spelling in the printing of the National Education Association shall conform with the recommendation of the S.S.B. Circular Number 23 be not adopted.

I move the adoption of this part of the report.

This was duly seconded and carried.

MR. PEARSE (reads the seventh part of the fourth section of the report):

7. That Section 6 of Article I of the by-laws be made to read: "The right to vote and to hold office in the Association or the departments is open to all active members whose dues are paid. The right to vote and to hold office in the Council is open to all members of the Council whose dues are paid."

I move the adoption of this part of the report.

This was duly seconded and carried.

MR. ROUNDS: Your Joint Committee on Uniform Nomenclature in English Grammar has completed the main portion of its work and has presented its report, which has been adopted. This constitutes an automatic dissolution of the committee. There is some further correspondence with foreign committees to be maintained as yet, and some other routine work in getting out added reports. Your committee desires me to present the following motion, which will not involve any further expense to the Association:

That the Joint Committee on Uniform Nomenclature in English Grammar be continued until its work is completed.

This was duly seconded and carried.

WILLIAM F. RAMSEY, of Oklahoma: A question for information: Has the National Education Association a director from Alaska?

PRESIDENT SWAIN: Is there anyone here from Alaska?

SECRETARY SPRINGER: Not that I know of. There was one other matter left over from last year: A notice from the Department of Manual Training and Art Education requesting a change of name.

ARTHUR L. WILLISTON, of Massachusetts: The name of that department does not represent adequately all the interests in the department, and a year ago a vote was taken recommending a change of name. This action was reaffirmed at a meeting of the department yesterday, and on behalf of the department I desire to make the motion, in conformity with notice given as required by the constitution, that the department be designated as "Department of Vocational Education and Practical Arts."

This was duly seconded and carried.

SECRETARY SPRINGER: I have the following report of the Auditing Committee:

We, the undersigned, have examined the reports of the Secretary, the Treasurer, and the Board of Trustees, as printed, together with the certificate from the Auditors attached, and recommend that they be accepted.

(Signed) J. W. CRABTREE
FLORENCE ROOD

E. O. VAILE, of Illinois: Mr. Pearse reported an action upon a notice given last year in regard to amending the by-laws in regard to simplified spelling, and we do not see by what authority he took it under his control.

MR. PEARSE: The committee understood it was referred in with the other matter.

MR. VAILE: Understood when and how?

MR. PEARSE: By our general understanding.

SECRETARY SPRINGER: That notice was given last year along with several others. Immediately following the notices, President Fairchild said: "I suggest to this body that it might be well to add to the duties of the by-law committee a careful investigation and report upon these matters." A motion to that effect was then made, which motion was seconded and carried.

MR. VAILE: I voted for the report of the committee, and I now move a reconsideration of that part of that paragraph of the report of the committee referring to reformed spelling. I move that we reconsider it now and have an opportunity to discuss it.

PRESIDENT SWAIN: It is so late.

MR. VAILE: It doesn't make any difference how late it is. The statement was made.

WILLIAM B. OWEN, of Illinois: I move that this be laid on the table.

MR. VAILE: We do not ask action now, but simply that it be left open until next year.

PRESIDENT SWAIN: I understand that it will be taken up next year.

MR. VAILE: Will this be considered notice?

PRESIDENT SWAIN: I will ask the Secretary to make a note of it and it will come up next year.

W. H. CAMPBELL, of Illinois: In connection with this matter, I presume I have a right to a personal explanation as I offered this resolution last year. It has now been disposed of. I was told by the Secretary that I would have an opportunity to explain that question when it was reached. I was probably asleep, and the chairman of the committee had read the report and it had been passed upon before I knew it. It was my idea, and the Secretary so understood it, to move that the notice be laid on the table to be taken up at a future time.

PRESIDENT SWAIN: There is a motion to be considered.

MR. OWEN: My motion was to table.

MR. CAMPBELL: Why not withdraw that and let it come up again next year?

PRESIDENT SWAIN: The intention was that this matter might come up freely next year.

MR. OWEN: It is satisfactory if they quit talking about it. Let us get down to business.

PRESIDENT SWAIN: We will proceed to business. The Committee on Teachers' Salaries, Tenure, and Pensions presents the following report:

Under the direction of the Committee of the National Education Association on Teachers' Salaries, Tenure, and Pensions, three extended studies have been prepared. The first of these is the work of Robert C. Brooks, of Swarthmore College, the second of Scott Nearing, of the University of Pennsylvania, and the third of James C. Boykin, of the United States Bureau of Education. Concluding its labors for the years 1911-14, the committee desires to present the following summary of these three reports and particularly to emphasize the manner in which they may be utilized by teachers interested in the investigation of salary conditions in their own communities.

I

In January, 1913, the Association published the report prepared by Mr. Brooks in the form of a pamphlet of 328 pages, ten thousand copies of which have since been distributed widely among members and teachers generally. The first part of this report is devoted to a discussion of the measurement by economists of the increase in the cost of living. With the aid of the figures therein presented, teachers should be able to ascertain whether their salaries have kept pace with the general increase of prices that, with a few minor interruptions, has been going on in the United States since 1897.

The second part of this report presents a detailed study of the social and economic situation of the public-school teachers in five cities, Cincinnati, Hamilton, Denver, Atlanta, and New Haven. These communities were selected for intensive study by the committee, not because of any peculiar condition existing there, but rather with the hope that the methods employed might prove suggestive and helpful to committees of teachers interested in the salary question in their own localities. Numerous inquiries which have been made since the appearance of the report indicate that this result has been attained. Briefly, it was endeavored to ascertain from the five cities mentioned what teachers of both sexes and of all ages and ranks had secured in the way of the material rewards of life, and also what material burdens rested upon them. Topics such as the following were considered in detail: number of children and other dependents upon married teachers; burden of dependents upon unmarried women teachers; home ownership and tenancy of married teachers; residence and amount paid for board and room by unmarried teachers; average salaries and other sources of income of teachers; savings of teachers during the year under investigation; value and kinds of property acquired by teachers; life insurance and types of policies carried by teachers; length of the schoolroom day and other demands upon the time of teachers; educational and professional training of teachers; relation of training, experience, and salaries; expenditures of teachers for rent, clothing, insurance, care of health, and other purposes; teachers' salaries compared with the salaries of other municipal employees; and, finally, the opinion of a large number of teachers themselves upon the adequacy of their compensation in relation to the numerous special as well as ordinary demands made upon them.

While many of the inquiries upon which this study was based were extremely personal and searching in character, information was freely given under the committee's guaranty of confidence. It is believed that investigators working under properly constituted committees of teachers' associations should be able to secure similar data in any locality. Properly presented, and Mr. Brooks's report furnishes an excellent model in this way, the relevance and effectiveness of such materials in any salary discussion are beyond controversy.

An appendix to this first report also presented lengthy extracts containing all the more important parts of the teachers' pension laws in force in the various states of the Union. This material was designed to aid teachers interested in the initiation or furtherance of pension plans by supplying them with ideas and legal forms bearing on the subject.

II

Under the direction of the committee, Scott Nearing, of the University of Pennsylvania, prepared during the year 1913-14 a report on "The Public-School Teacher and the Standard of Living." This study is now in manuscript in the hands of the committee to be offered to the National Education Association for publication in its *Proceedings* for the current year. It was the purpose of Mr. Nearing in this study to present the standard-of-living question which economists have raised regarding numerous groups of wage-earners and to indicate as thoroughly as possible how their methods may be employed in the solution of the same question as it applies to groups of teachers. "Apparently the time has come," he writes in his foreword, "when, in any city or town in the United States

public opinion must ask this question: 'Are the salaries now paid in this place sufficient to allow the teachers receiving them to live at the standard of living generally accepted as adequate in this locality and among the group of people with whom as teachers they are called upon to associate?'

While there is, of course, no universal answer to a question respecting the adequacy of given salaries to maintain a given standard of living, there may well be a universal method of procedure by means of which each community can secure the answer for itself. In the consideration of this method, Mr. Nearing presents discussions of the following topics: What do we mean by a standard of living? Methods employed by social scientists in the study of the standard of living; standard of living in the teaching profession; measuring the standard of living; estimating the cost of a fair standard of living. In this study, Mr. Nearing devotes attention not so much to the minimum subsistence as to the "fair," "normal," or "efficiency" standard of living. On this topic he says in part:

"The fair standard of living is now generally accepted as the social ideal. It was formerly taken for granted that if a family was provided with a mere subsistence, everything necessary had been done. During recent years, however, particularly in Germany, great emphasis has been laid on the maintenance of efficiency, as well as of mere physical existence. Starting as an industrial concept aimed at the preservation of the workers for industrial or even military purposes, the efficiency idea has spread into local fields, until there is a general recognition of the desirability of maintaining an efficiency standard in every walk of life. Nowhere, perhaps, is the need for efficiency greater than among the teachers who are called upon to shape the lives of America's future citizens.

"In the case of the teaching profession, mere subsistence means little or nothing. The teacher must be able to maintain not only physical and mental efficiency, but likewise a certain professional proficiency which can come only thru leisure time spent in reading the right books, in pursuing advanced studies either under direct instruction or by correspondence, in travel and observation of places and methods, and in any legitimate pursuits which enable her to keep abreast of the times."

In an extended appendix, there are presented illustrations of the methods and results of a number of the more fruitful recent standard-of-living inquiries. One of the most interesting of his contributions is a suggested schedule for the study of the standard of living among single women teachers.

III

Finally, with the cordial co-operation of the Bureau of Education, the committee was fortunate in securing the services of James C. Boykin, assisted by Roberta King, for the preparation of a report on "The Tangible Rewards of Teaching." Proofs of this monumental study are now in the hands of the chairman, and it is to be issued shortly as a bulletin of the Bureau of Education in the form of a bulky pamphlet of 465 pages. In its eight chapters, Mr. Boykin presents in compact form the salaries of all ranks in city-school systems, of state and county superintendents, and of rural-school teachers; extracts from the laws of the state relating to teachers' salaries and to county superintendents' salaries; salaries paid in universities and colleges, in state normal schools, in trade, manual-training, and industrial schools, and in schools for certain classes of pupils, as, e.g., blind, deaf, and feeble-minded. An excellent 21-page bibliography of teachers' salaries prepared by Bird T. Baldwin and Walter H. Mohr, of Swarthmore College, is appended, and the work is well indexed.

The greater bulk of Mr. Boykin's material is, of course, given over to the salaries of teachers in the city-school systems of the United States. Thirty-four tables, occupying 296 pages, are devoted to statistics of this character. In most of these, cities are divided into groups based on population, and the number of teachers of every rank receiving each specified salary is stated, sex being indicated. "Every effort," Mr. Boykin writes, "was made to secure and present a statement of every salary paid for teaching and for supervision in every city, town, and village in the United States in which more than five thousand persons reside. Very few are not included."

The value of materials of this character as a basis for further salary studies can scarcely be overestimated. Suggestions dealing with this point will be presented later. Meanwhile it should be noted that two broad and important lines of comparison are opened up by Mr. Boykin's statistical collection.

First of these is a possibility of a definite answer to the question as to whether or not teachers' salaries have kept pace with the increase in the cost of living. In 1905, the former Committee of the National Education Association on Salaries, Tenure, and Pensions published a great mass of statistics dealing with teachers' salaries in all parts of the country for the year 1903-4. Mr. Boykin's figures are for the year 1912-13. During this period of only nine years, wholesale prices have risen 17.6 per cent and retail food

prices 25.9 per cent, according to the report of the United States Bureau of Labor statistics. Employment of the methods suggested by Mr. Brooks in the first report of the committee should enable students of Mr. Boykin's report to ascertain where teachers' salaries had increased more rapidly than the cost of living during the last nine years and where they had merely kept pace with it or fallen behind. Similar comparisons covering the whole period since 1897, during which general prices have been rising, are rendered possible by Table 22 of Mr. Boykin's report, in which salaries of teachers in a number of larger cities are presented for a long series of years, in one case going back as far as 1834.

Secondly, Mr. Boykin's figures make it possible for teachers of any rank in any community to ascertain salaries paid teachers of similar rank in all other communities of about the same size and in the same section of the country. Comparisons of this sort in the case of cities which have allowed their salary schedule to lag behind the times should make a powerful appeal not only to the sense of justice but also to the local pride of school boards.

The committee begs leave to present for consideration the following suggestions regarding the future work of the National Education Association in the matter of teachers' salaries:

1. Mr. Nearing has drafted the main outlines of an inquiry to determine whether or not teachers of certain groups are receiving incomes sufficient to insure them a fair standard of living. Wherever communities are sufficiently interested in this problem, the Association suggests the application of his methods with the purpose of securing definite answers to this vital question.

2. The extreme value of the raw materials collected by Mr. Boykin makes it essential that every effort should be made to have these materials thoroly studied and given the widest publicity in the interest of the teachers of the country. On this point Mr. Boykin himself writes: "No attempt was made (in the report) to draw conclusions or to institute comparisons. Even summaries, averages, medians, and all other customary accompaniments to statistical investigations are almost wholly omitted. With definite limitations of time and space, it seemed the part of wisdom to present as much as possible of original material and to leave all secondary studies for others. There is abundant opportunity for fruitful studies of that kind." Two main lines for the study of this report are indicated above. But in addition it demands varied and thoroging interpretation. Maps showing salary conditions in all parts of the country could be based upon it. The committee will invite the co-operation of the Russell Sage Foundation and the Bureau of Municipal Research in this work, and also that of the graduate schools of pedagogy, and teacher and other organizations.

3. The National Education Association should pass a resolution cordially thanking the Bureau of Education for its extremely valuable co-operation in the preparation and publication of the report on "The Tangible Rewards of Teaching," and requesting the Bureau to issue a supplementary report of similar character annually, covering the changes in salaries made during the year.

4. The committee should encourage the publication of local studies by school boards, associations of teachers, graduate students, and others not only along lines suggested by Messrs. Brooks, Nearing, and Boykin, but also along other and independent lines.

5. The large majority of teachers are women, and as such are still without the right of suffrage in most states, therefore the funds from which their salaries are paid are under the control of officials in whose selection they have no vote. It should be clearly recognized by the National Education Association, therefore, that the relation of woman's suffrage to the honest and fair adjustment of the salaries of women teachers is vital and immediate.

6. The committee believes there should be equal pay for equal services.

PRESIDENT SWAIN: Is there any additional statement which any member of this committee wishes to make?

MISS HALEY: If you do nothing further, will it be understood that the Association extends its thanks to the Bureau of Education?

PRESIDENT SWAIN: Yes.

MISS HALEY: I move you, Mr. President, that the chairman of this committee be directed to prepare a suitable resolution expressing the thanks of this Association to the Bureau of Education for the splendid work in preparing this report, and especially to James C. Boykin and Roberta King, who were joint compilers of the data.

This was duly seconded and carried.

MR. CLAXTON: Only thirty-five hundred copies are printed in that form. Mr. Boykin found it impossible to make certain desired studies in the allotted time. We have, therefore, deferred the printing of an additional 12,500 until these studies can be made.

MISS HALEY: I move that the Secretary be directed to send one copy of that report to every active member in the Association.

This was duly seconded.

PRESIDENT SWAIN: You have heard the motion.

SECRETARY SPRINGER: I would suggest that you amend that by including that he be directed to request the Commissioner of Education to send them out, in order that the regular franking privilege can be used.

PRESIDENT SWAIN: The amendment is accepted as I understand it. All those in favor will signify by saying, "Aye." Contrary, "No." It is so ordered.

MR. GREENWOOD: I wish to give notice of an amendment to the by-laws to the effect that the hour of the annual meeting be at ten o'clock instead of eleven o'clock in the interest of humanity.

PRESIDENT SWAIN: It will be made a matter of notice.

OLIVER S. WESTCOTT, of Illinois: I would like to amend the notice by suggesting that the annual meeting occur on Friday instead of on Thursday. The department over which I preside has a very important subject to discuss tomorrow. The same subject has been already discussed here, made a prominent feature in the local papers, and a resolution upon the subject has been read this afternoon and indorsed by the Association. The resolution read this afternoon was couched in perfectly harmless terms, so far as I was able to judge, and I did not feel disposed to object to it, but our work tomorrow seems to me to be utterly useless after these preliminary meetings. I believe the joint meeting of the Departments of Secondary Education and School Patrons will not agree with the conclusions reached in the meetings already held. Personally I object to the arrangement that our work should occur after this matter has been officially disposed of.

PRESIDENT SWAIN: There is no motion before the house. It is customary to have a Committee on Necrology. I would ask the Secretary to read the names of the members of this committee.

SECRETARY SPRINGER (reading):

James M. Greenwood, advisory superintendent of schools, Kansas City, Mo.

Kate Devereux Blake, principal of Public School No. 6, New York, N.Y.

W. N. Sheats, state superintendent of public instruction, Tallahassee, Fla.

Josephine C. Preston, state superintendent of public instruction, Olympia, Wash.

J. M. H. Frederick, superintendent of schools, Cleveland, Ohio.

PRESIDENT SWAIN: This requires no further action. Has the Secretary any further business?

SECRETARY SPRINGER: It is very easy for false rumors to arise, and I believe that I should make one statement in order that as you leave the room you will be acquainted with the fact. Fifty-four active members of the Association who had not their receipts were admitted to the meeting, because of the fact that we had the official register and could certify to them. There was one former active member of the Association, whose dues have been delinquent for three years, to whom admission was refused. Inside of ten minutes, the report came from the St. Paul Hotel that one hundred members had been turned away. Thus one perfectly legitimate case had, in ten minutes, grown to be one hundred. Don't believe all the rumors you hear.

As I understand it, the Secretary is at liberty to provide for a midwinter meeting of the Department of Higher Education, but it is not to be the annual meeting. I want to be sure that I understand this.

MR. PEARSE: I do not think you are right. The proposition was that all departments arrange their annual meetings at the time of the annual meeting of the Association.

That was carried. There was also a further motion that the matter of an annual meeting of the Council be laid over for one year.

SECRETARY SPRINGER: I understand it was not to be an annual, but another meeting.

MR. PEARSE: The policy of this Association as to that was decided.

MISS HALEY: Can any department at any time, without the consent of the Board of Directors, hold an extra meeting, not an annual meeting?

PRESIDENT SWAIN: I believe it requires the consent of the Executive Committee.

MISS HALEY: Where do we find this authority?

MR. PEARSE: It requires the consent of the officers of the Association.

There was introduced at Salt Lake City a resolution requesting the officers of the Association to see what, if anything, can be done toward securing legislation by which all printed matter of the National Education Association might go thru the mail without expense to the Association. I should like to know what was done about this.

SECRETARY SPRINGER: The history of that matter is in the Secretary's report, which will be printed.

PRESIDENT SWAIN: I want to say one word about a question which was asked by Miss Haley, in regard to the number of women on the Board of Directors. I take it there was no implied criticism in this question. The fact is that this is a question for the states to settle. If for any reason the members of a state wish a particular person, a man or a woman, for a director, the thing for them to do is to go to the meeting and suggest that appointment, because in all meetings that I have ever attended the selection has been simply a formal matter. I thought it worth while to make this explanation as some might misunderstand it.

MISS HALEY: I am sorry I was not permitted to make my explanation before so many members had departed. I did not wish this to be construed as a reflection upon the work of the nominating committee. I did wish to make the women here feel their responsibility for failing to do their duty. If there are only four of them on the Board of Directors I think the women here ought to feel that it was their place to attend the state meetings. I realize that the nominating committee does not interfere with recommendations of the members from the states.

It was thereupon moved and seconded and carried that the meeting adjourn.

D. W. SPRINGER, *Secretary*

Approved,

JOSEPH SWAIN, *President*

M. H. Stuart, principal, Manual Training High School, Indianapolis, Ind.
Joseph S. Stewart, professor of secondary education, University of Georgia, Athens, Ga.

It is a privilege to emphasize to the Board of Directors the financial policy determined by you during this past year.

At the Salt Lake City meeting you passed the following resolution:

Resolved, That the Executive Committee is authorized to apportion the funds indicated above except in the case of the committee first named; also to assume responsibility as may be requisite in determining which expenditures are most important and which shall be first authorized, if it shall in any case prove to be impracticable for all expenditures authorized to be made as requested; and that the committees of investigation named above be required to consult with the Executive Committee and secure the approval thereof before contracting or making expenditures.

I speak with the unanimous indorsement of the Board of Trustees and of the Executive Committee in joint session in recommending that you suggest to the new Board of Directors that the policy established by this Board, which has proven entirely satisfactory during the present year, be adopted for the coming year; which policy is, namely, that the Executive Committee is directed, in light of all subsequent facts which will be known to them, to keep the expenses of the year within the income. It is not to be expected that members not in full possession of the facts can know in advance exactly how much money will be available for the use of the committee until the fixed and necessary expenses of maintenance of our organization can be determined.

I therefore would suggest that you recommend to the new Board that the financial policy which has been found satisfactory during this year be pursued next year.

In this connection allow me to call to your attention the fact that the various committees this year, notwithstanding the fact that less than \$3,200 was appropriated for their use, have performed services at an expenditure far greater than this amount. The additional funds were provided either by the individuals on the committees or by co-operative bodies. The Committee on Teachers' Salaries, Tenure, and Pensions, which was given a preferred claim, expended only two-thirds of the \$2,500 appropriated to it, and the United States Bureau of Education expended over \$4,000 on a single bulletin of 465 pages gotten out jointly by the Bureau and the Committee on Teachers' Salaries, Tenure, and Pensions.

The Committee on Improvement of Physics Teaching secured from outside sources \$4,000, namely, from the Weston Electrical Instrument Company, of New Jersey, for the publication of a monograph on "Elementary Electrical Testing." This monograph was gotten out by the Weston Electrical Instrument Company, its contents being approved by the Committee on Improvement of Physics Teaching.

It is believed that by thoro canvass our various committees may extend the field of such assistance and carry on still larger work even tho the Association itself cannot furnish all the money needed for this purpose.

A third illustration is found in the co-operation of the Committee on Health Problems in Education of the National Education Association with a similar committee of the American Medical Association. This association furnished more funds than did our Association.

The Committee on Economy of Time in Education and the Committee on the Reorganization of Secondary Education each prepared a pamphlet which was published by the United States Bureau of Education.

As many committees investigating school problems dovetail and duplicate their work, a reorganization of the committees should be made with a view to clear definition of work. For example: The Committees on Cosmopolitan High-School Curriculum, Vocational Education and Vocational Guidance, Improvement of Physics Teaching, Course of Study

in Agriculture, and Terminology (Department of Music Education) are all in part at least included in the scope of the Committee on the Reorganization of Secondary Education. These committees might perhaps all be subcommittees of the last named. It is, of course, natural that there should be duplication since there are so many different appointing powers, unless there is some central body which has power of defining the work of committees.

The present condition is very confusing to the Board of Trustees and the Executive Committee when they are asked to make appropriations. The Board of Trustees and the Executive Committee unite with me in recommending that the Executive Committee and Board of Directors be authorized to ask for such reorganization of committees as will insure that there shall be no duplication of work by these committees. In this connection, it may be said that it is strongly urged that a former action of the Board of Trustees and Executive Committee in joint session be strictly adhered to in the future. The recommendation is as follows:

That each committee asking for an appropriation of money shall submit with such request a list of publications which have been printed on the subject of the proposed investigation.

Owing to the financial condition of the National Education Association, expenses must be reduced to a minimum. Committee meetings should be held without expense to the Association. Two meetings a year without such expense to the Association may be held in connection with the annual meeting of the National Education Association and in connection with the meeting of the Department of Superintendence, as it is the duty of the members on such committees to be present at these meetings. If a third meeting is necessary, in the opinion of the committee, the expenses for such meeting should be first authorized by the Executive Committee of the National Education Association.

Respectfully submitted,

JOSEPH SWAIN

President, National Education Association

PRESIDENT SWAIN: I wish to emphasize the fact that there is nothing startling or new about this report. I have simply, under the direction of the Board of Trustees and Executive Committee, tried to state in terse form a few of the things that seem necessary to the Board of Trustees and Executive Committee in order that you may appropriate your money in the best way—in order that two dollars are not appropriated where one would do, and in order that money is not appropriated for duplication of work.

DIRECTOR EDWARD T. FAIRCHILD, of New Hampshire: I move that the report just read be referred to the new Board of Directors.

Motion seconded and carried.

PRESIDENT SWAIN: The next in order is the report of the Treasurer.

SECRETARY SPRINGER: You have the printed report. If we follow the custom of other years, the Treasurer will be glad to answer any questions that you may wish to ask at this time.

DIRECTOR FAIRCHILD: This report has been fully audited and I move its adoption.

Motion seconded and carried.

PRESIDENT SWAIN: The next in order is the report of the Board of Trustees.

DIRECTOR J. STANLEY BROWN, of Illinois: I have no statement to make that will give any additional information over that which is contained in the printed report. I should like to call attention to one thing, however, in connection with the report of the Treasurer. By reference to our *Proceedings* for the meeting at Salt Lake City, you will find the expenditures estimated at \$32,000. So carefully was this estimate made that it varies less than \$200 from the actual figures.

On motion, the report of the Board of Trustees as printed was accepted and approved.

PRESIDENT SWAIN: The next in order is the report of the Secretary.

The report which was read appears in full elsewhere.

DIRECTOR FAIRCHILD: I have listened with a great deal of interest to this report of the Secretary. He not only offers a statement of his duties as Secretary, but he goes into the question of what the Association may do in the future. I am sure that these suggestions are valuable, and yet there are two things to which I should like to call the attention of this Board. The first is a proposition to publish the *Proceedings* part in regular volumes, and part in bulletin form. Now it is possible, we may say probable, that there are those who would like to get the *Proceedings* in that manner. I want to know, before indorsing such a policy, that the members of the National Education Association—that is, a considerable number of them—would like to have that plan carried out. It seems to me that the value of these *Proceedings* in the past has been greatly increased by their permanent form. They have served as a place to which the student or inquirer could always go. Everybody knows what becomes of our magazines in this day and age. I have great doubt personally as to this proposition. I do not see that there is any special argument in its favor, excepting that we might save about two thousand dollars. I merely mention this, and give as my own view that, before authorizing anything of this kind, there should be the most careful and complete inquiries made. I am glad to note that the Secretary so recommends. I think that investigation will throw grave doubts upon the question of materially reducing the number of bound volumes.

The other thing to which I refer is the question of the time of holding the annual meeting. It is recommended by the Secretary that it come later in the year. Those who are familiar with the history of the Association know that this is a question that has come up from time immemorial. Arguments for and against have been given. There is this to be remembered. Perhaps there is no time at which the meeting could be held that would not offer embarrassment to some members. The question of the normal schools and summer sessions has been brought up as an argument for putting the time of meeting later in the year. No doubt these normals do keep away many who would be valuable to us, but I want to speak for the great body of teachers in our schools—I mean the teachers in the grades, the teachers in the rural schools—these teachers will find it extremely difficult to come at a later time. When their schools are closed, they make arrangements for other work, or go to summer schools, and they cannot take longer vacations or a trip later in the summer. I want to emphasize the fact that any action looking toward the adoption of this suggestion of the Secretary should be taken only after the most careful investigation, which, I understand, he suggests. I think that the time should always be left in the hands of the Executive Committee. I merely make these two allusions because it seems to me that they are important. There should be no hasty act or action taken in regard to these two questions. Let the exigencies of the case determine what shall be done; let the present authority, fixed by the constitution and by-laws, continue to say when we shall have our meeting.

SECRETARY SPRINGER: I suggest that during the year we try to find out the wish of the members.

DIRECTOR JAMES Y. JOYNER, of North Carolina: This report of the Secretary contains very valuable suggestions which are worthy of very careful consideration. However, as the next Board of Directors will be responsible for the success of the next meeting, I think it proper that this report be referred to them for final action. I therefore move that the report be received and filed and referred for careful consideration and final action to the incoming Board of Directors.

DIRECTOR L. P. BENETZ, of Wisconsin: I ask for information. Do I understand that in accepting the Secretary's report we definitely commit ourselves to all these changes?

PRESIDENT SWAIN: Not at all. If the motion as made by Director Joyner is passed, it simply refers this report to the next Board of Directors.

Motion seconded and carried.

DIRECTOR THOMAS A. MOTT, of Indiana: Did not the directors, by a correspondence vote, decide that at this meeting we would recommend to the new Board of Directors that the 1915 meeting be held in August? As I understand it, nine-tenths of the directors voted in favor of the change of time for next year. While I like Mr. Joyner's motion that we leave final decision to the new Board of Directors, it seems that we should take some action at this meeting in view of our correspondence vote.

PRESIDENT SWAIN: We have still to consider the question of the confirmation of the correspondence vote. It is the general question as to a settled policy of holding the meetings that has been referred.

DIRECTOR MOTT: I do not think that relieves us from the responsibility on the other matter. I move that we, as a Board of Directors, instruct the Executive Committee to hold next year's meeting after the middle of August.

SECRETARY SPRINGER: The form of motion that we should pass is to recommend to the new Board of Directors that it fix the dates of next year's meeting from August 16 to August 27.

DIRECTOR MOTT: I make that motion.

The motion was seconded.

DIRECTOR FAIRCHILD: I should like to hear that motion again before the vote is taken.

DIRECTOR MOTT: I move that we, as a Board of Directors, recommend to the new Board of Directors that it change the dates of meeting for 1915, making them after the middle of August.

DIRECTOR T. MARCELLUS MARSHALL, of West Virginia: What value or what necessity is there for our making a recommendation to our successors who have full authority?

PRESIDENT SWAIN: It is quite true that the new body has authority to pass on this, but we shall take the vote.

The motion was carried.

SECRETARY SPRINGER: The Secretary has received letters from Kate Stevens, principal of North Islington Central Girls School, Tallington Park, London, England, and E. J. Russell, director, Rothamsted Experimental Station, Harpenden, England, thanking the directors for the honor conferred upon them by their election to corresponding membership in the Association.

PRESIDENT SWAIN: There seems to be no other business. Perhaps the directors may have some matters to bring before the meeting. If not, I want to say that the first general meeting of the Association will be held this afternoon beginning at two o'clock in the Auditorium. It is desired that all directors take seats on the rostrum. No tickets are necessary. I hope you will respect this invitation.

Announcements were then made concerning the meeting of active members by states and bills for expense incurred by the directors. Letters of greeting were also read from the National German-American Teachers Association meeting in Chicago, and from the party of American teachers who were studying industrial education in foreign cities, under appointment from the United States Commissioner of Education.

DIRECTOR MARSHALL: What is the status of the Million Dollar Fund?

PRESIDENT SWAIN: The Secretary will report with regard to the matter.

SECRETARY SPRINGER: The director of the fund has not yet presented his report to us. It may be in readiness for the next meeting of the Board of Directors. He has made a report at each of our other meetings, and I had a letter from him to the effect that one would be forthcoming for this meeting. He is not coming to the meeting, but he said he would send a report, which he has not done.

PRESIDENT SWAIN: The Chair knows of no other business. A motion to adjourn is in order.

DIRECTOR AGNES E. DOHERTY, of Minnesota: I want to inquire if this is the only report that is asked for from directors. As a member of the local committee, I am very desirous of knowing just what the prospects for membership are. I thought perhaps reports might be made at this time.

SECRETARY SPRINGER: It would be practically impossible at this meeting for any director to tell what his prospects are.

DIRECTOR DOHERTY: As a member of the local committee, I want to express my appreciation of the work that has been done. We have kept in touch with some of the directors, but we had hoped to hear from others at this time.

Upon motion, the meeting adjourned.

DURAND W. SPRINGER, *Secretary*

Approved,

JOSEPH SWAIN, *President*

VICE-PRESIDENT SWAIN: What is the first matter of business?

SECRETARY SPRINGER: The appointment of a committee to fill vacancies in the Council.

VICE-PRESIDENT SWAIN: I may say that in order that this matter might be carefully considered, I appointed a committee consisting of Messrs. Aley, Pearse, Joyner, and Greenwood to prepare a report in advance.

DIRECTOR ROBERT J. ALEY, of Maine: Your committee appointed to nominate members for the National Council of Education begs to report that all names presented to Secretary Owen or to members of the committee were carefully considered. The report of the committee was on motion accepted and adopted.

SECRETARY SPRINGER: The next matter of business is the election of a member of the Board of Trustees to succeed J. Stanley Brown.

DIRECTOR WILLIAM P. EVANS, of Missouri: I wish to nominate a man who has made good as a member of this Board of Trustees, one who, in filling out an unexpired term, has conservatively handled his work and has fulfilled an important trust satisfactorily. I remember that long before I had anything to do with shaping the policies of this Association one man from Illinois was a member of the Board of Trustees for many years, a man who had a great deal to do with shaping the destinies of the body. I am satisfied that one reason why he was so successful is that he was continued for many years in one place. I think that is a good policy. I therefore nominate J. Stanley Brown as a member of the Board of Trustees.

DIRECTOR MILTON C. POTTER, of Wisconsin: While I would not detract one syllable from the very worthy and well-deserved tribute paid to Mr. Brown, and have not the slightest doubt of the value of his services to the Association, I must subscribe to the Rooseveltian doctrine that a fraction of a term is a term. I take pleasure in nominating a distinguished citizen of Wisconsin, Carroll G. Pearse.

Both nominations were seconded by many of the directors.

DIRECTOR JOHN W. COOK, of Illinois: In seconding the nomination of Mr. Brown, I desire to ask a question. It has been rumored in private conversations that charges have been preferred against Mr. Brown, and that there is dissatisfaction on the part of some members of the Board with the manner in which he has conducted himself as a trustee. I believe that, if such is the case, expression should be given to the same at this time, and I, therefore, suggest that, if there are those who are objecting to Mr. Brown's re-election because of the manner in which he has performed services as trustee, expression may be given now. This is a gentleman's game and it should be played as such.

DIRECTOR AGNES E. DOHERTY, of Minnesota: I shall be glad to show that I can play the game as a gentleman should. I have made certain statements about Mr. Brown, and I am glad of the opportunity to state them here.

The question of the election of a member of the Board of Trustees comes up at this time. As the director for Minnesota, I was asked to vote for Mr. Brown. I refused and gave the reasons. I shall give them here.

Last February, before the Richmond meeting, when the Executive Committee was to make its final decision on the question of St. Paul as the convention city, Mr. Brown came to St. Paul. He was in St. Paul for a few hours only. He refused to go to the office of the Association of Commerce, which was the official headquarters. Our local business men would be very glad to come here and give testimony as to their experiences with Mr. Brown.

He remained at the Hotel Sherman within two blocks of the Union Depot and acquired most of his information over the telephone. He made no first-hand investigation of hotels, meeting-places, etc. As state director, and as a member of the local executive committee, it would have been courteous to consult me. This was not done—in fact, I have never met Mr. Brown.

For all these reasons, I submit to the Board of Directors the question whether a man who would make an investigation of such a character is a properly qualified person for the Board of Trustees and the Executive Committee.

DIRECTOR J. STANLEY BROWN, of Illinois: In view of the discussion which has taken place, I think a few words of explanation are necessary.

President Swain telegraphed me from Florida, where he had gone for a few days' rest, and asked me to go to St. Paul to find out what changes had taken place in the local conditions following the resignation of Superintendent Potter. I left Joliet immediately, but my train reaching St. Paul was very late, and I had but a small amount of time to get the information I sought. I succeeded in talking with Superintendent Potter for a few minutes by telephone. He told me that he was arranging to leave for Milwaukee that evening, and hence had no time to come down into the city to discuss the situation. I attempted to reach Miss Doherty by telephone, but failed. The time at my disposal was so short that I could not make a personal visit to her home. I succeeded in having an interview with Mr. Mitchell, and with two representatives of the press of St. Paul.

The information secured led me to infer that the work up to date was meager, but that the plans for entertaining the convention were pretty well in hand. I made this report, as requested by President Swain, at the Richmond meeting. The action taken by the Executive Committee after the report was unanimously in favor of St. Paul. This ought to be sufficient to clear up any thought of antagonism toward St. Paul.

SECRETARY SPRINGER: I presume a word of explanation is due from the Secretary. When Superintendent Potter's resignation at St. Paul was announced, I immediately took up the matter by correspondence with the local committee as well as with the officers of the Association. It was just prior to our Richmond meeting. Arrangements had been made for Mr. Mitchell, the chairman of the local committee, to meet with our Executive Committee at Richmond. Some information reaching President Swain at the last moment made him desire a personal investigation. He telegraphed me to go to St. Paul, but I had already left for Richmond, and he then asked Mr. Brown to make the trip and secure what information he could in the limited time.

DIRECTOR E. E. SCRIBNER, of Michigan: I move that we proceed to ballot.

Motion seconded and carried.

DIRECTOR CARROLL G. PEARSE, of Wisconsin: Mr. Chairman, I desire to be excused from voting.

VICE-PRESIDENT SWAIN: The ballot has been taken. The vote stands twenty-two for Carroll G. Pearse and fourteen for J. Stanley Brown. Mr. Pearse is, therefore, elected to the Board of Trustees for a term of four years. What is the next item of business?

SECRETARY SPRINGER: The election of a member of the Executive Committee to succeed George B. Cook.

DIRECTOR E. T. FAIRCHILD, of New Hampshire: I nominate Mr. Cook to succeed himself.

DIRECTOR: I move that the Secretary be instructed to cast the ballot.

Motion seconded and carried.

SECRETARY SPRINGER: The ballot is cast.

VICE-PRESIDENT SWAIN: The next item of business will be the selection of the place of meeting for 1915.

DIRECTOR A. H. CHAMBERLAIN, of California: I move that Oakland, Cal., be selected as the meeting place for 1915 and that the dates of the meeting be August 16 to August 28.

The motion was seconded and carried.

DIRECTOR M. P. E. GROSZMANN, of New Jersey: I should like to extend an invitation from New Jersey for the 1916 meeting.

DIRECTOR SCRIBNER: I should like to extend an invitation from Detroit for the 1916 meeting.

SECRETARY SPRINGER: The report of the Executive Committee presented to the annual meeting and transmitted by them to this body with certain additional recommendations is before you. It is as follows:

As required by the by-laws of this Association, your Executive Committee has carefully considered the requests for appropriations which have been presented by the chairmen of the various committees, both general and departmental.

The committee has been unable to recommend the allowance of all the appropriations asked for, and, in most cases, has been obliged to recommend a smaller appropriation for the several committees than was asked for. We feel, however, that the Association can with safety appropriate the amounts named to the following committees to be used by them during the year 1914-15:

Committee on Health Problems in Education.....	\$ 500
Committee on Vocational Education and Vocational Guidance.....	500
Commission on the Reorganization of Secondary Education.....	400
Committee on Rural Schools.....	500
Committee on Teachers' Salaries, Tenure, and Pensions.....	1,000
Committee on Economy of Time in Elementary Education.....	200
Committee on Standards and Tests of Efficiency in Schools and School Systems.....	100
Committee on the Improvement of Physics Teaching.....	100
Committee on Course of Study in Agriculture.....	100
Committees on School Revenue and School Health (Department of School Patrons).....	50
Committee on Terminology (Department of Music Education).....	25

Your committee recommends, in making these appropriations, that authority be given to the Executive Committee for next year to assume temporary responsibility in deciding which expenditures are most important in the work of these various committees, and which expenditures shall be first authorized if, in any case, it shall be impracticable for all such expenditures to be allowed.

By action of the annual meeting, the following additional recommendations were made:

Committee on Uniform Nomenclature in English Grammar, \$1,400. Referred to the Board of Directors for action.

Committee on Research, Standardization, and Correlation, of the Department of Business Education, was recommended to the Executive Committee for an appropriation if the funds of the Association will permit.

The Executive Committee was authorized to allow any committee to expend any unexpended balance of the appropriation made last year if the funds of the Association permit.

DIRECTOR SCRIBNER: I move that the recommendations be taken as the action of this body including the ratification of the expenditure of the Committee on Uniform Nomenclature in English Grammar.

VICE-PRESIDENT SWAIN: I have no desire to stand in the way of the proposed action, if that is your pleasure, but I should like it clear in the minds of this body that the Executive Committee, the Board of Trustees, and the Board of Directors are united in the policy that in the future no committee or no individual should expend money until that committee or individual is authorized to do so. I am not saying that this motion is right or wrong. I am inclined to think it is right, if we agree to the provision that in the future when any person or committee incurs debts in advance of an appropriation no obligation shall rest upon the Association to pay the same. If this policy is clear, I am in favor of the action.

DIRECTOR PEARSE: I think the policy you have enunciated is sound. This case, however, is rather extraordinary. This Association authorized the appointment of a committee to act jointly with committees from two other associations, and in carrying out their portion of the work, which was agreed upon, it seemed necessary to incur this expense.

VICE-PRESIDENT SWAIN: You have heard the motion.

Motion seconded and carried.

SECRETARY SPRINGER: The old Board of Directors referred to the present Board of Directors the recommendations in the President's address.

These recommendations, which will be found in the minutes of the meeting of the old Board of Directors, were read.

DIRECTOR SCRIBNER: I move that the recommendations of the President be confirmed by this body.

Motion seconded and carried.

SECRETARY SPRINGER: The old Board also referred to this body for action certain suggestions of the Secretary. These suggestions do not require action except reference to the Executive Committee with authorization to secure information during the coming year which would enable the Board to act intelligently on the matters should it desire to take action next year. These recommendations will be found in the printed report of the Secretary.

DIRECTOR: I move that the suggestions of the Secretary be so referred.

Motion seconded and carried.

SECRETARY SPRINGER: The following communication, signed by twenty-seven active members of the Association, has been received and is offered as official notice for action to be taken next year:

We, the undersigned publishers, active members of the National Education Association, hereby make application to have a new department organized to be known as the "Educational Publishers Department of the National Education Association."

The following communication has been received:

To the Board of Directors of the National Education Association:

I wish to ask for the appointment of a committee to investigate the advisability of the same annual meeting time of the National Education Association and the Department of Superintendence, even if such union should require the annual meeting to be extended over two consecutive weeks.

Many of the departments of the National Education Association are more vitally connected with the Department of Superintendence and will establish meetings in connection with that body, with or without the consent of the National Education Association. The union would greatly strengthen the National Education Association and would benefit the Department of Superintendence. It would also tend to allay the unrest that now exists in many of the departments of the National Education Association. As it is, too many active members of the National Education Association are required to attend two annual meetings, or lose much in which they are most interested.

Respectfully submitted,

G. W. A. LUCKEY

Dean, Graduate School of Education, University
of Nebraska, Lincoln, Nebr.

VICE-PRESIDENT SWAIN: This is a request for the appointment of a committee to investigate and report. It does not commit this body to any action.

DIRECTOR: I move that the President be authorized to appoint such a committee. Motion seconded and carried.

SECRETARY SPRINGER: Communications have been received from the Department of Rural and Agricultural Education, the Department of School Administration, and the Department of Higher Education, giving notice of proposed amendments to the by-laws under which it will be possible for meetings of these departments to be held in connection with the meeting of the Department of Superintendence.

There has also been filed a notice of the following suggested amendment:

ARTICLE V, SECTION 9: Each department may have an associated council whose purpose it shall be to unify the organization of the teachers interested in the field of the department, to act as a national representative body to co-ordinate and co-operate with such local teachers' organizations as shall become members of the National Education Association, and otherwise to promote the purpose and object of the corporation by all means which do not conflict with the powers of the National Council, the Executive Committee, the Board of Directors, and the Board of Trustees. Each department council shall adopt its own by-laws subject to the approval of the Board of Directors of the National Education Association.

A request has been received from Clarence D. Kingsley, chairman of the Commission on the Reorganization of Secondary Education, asking authorization for the President to appoint a Committee on Physical Education for said Commission.

DIRECTOR R. J. FULLER, of Massachusetts: I move that such authorization be given the President.

Motion seconded and carried.

SECRETARY SPRINGER: Two memorials have been presented to this body from the associations of St. Paul and Minneapolis opposed to woman's suffrage, both protesting against the action of the Association in indorsing universal suffrage.

DIRECTOR PEARSE: The President-elect is absent from the country and will not be back until some time during the autumn. In the meantime, it may be necessary for a great deal of work to be done by the acting President. It may not be convenient for him to do all this work personally. I move, therefore, that this Board of Directors authorize the acting President to designate some member of the Association to assist the acting President, until such time as the President shall return, in doing such things as the acting President himself cannot attend to, and that the expenses of such person while so assisting the acting President be paid.

Motion seconded and carried.

Director Matheson presented his resignation and asked that Orson Ryan be elected in his place. The resignation was accepted and Mr. Ryan was elected.

On motion, the meeting adjourned.

DURAND W. SPRINGER, *Secretary*

Approved,

JOSEPH SWAIN, *Vice-President*

REPORT OF THE SECRETARY OF THE NATIONAL EDUCATION ASSOCIATION OF THE UNITED STATES

SECRETARY'S OFFICE, ANN ARBOR, MICH., July 1, 1914

To the Executive Committee of the National Education Association:

The following is submitted as an annual report for the year ending June 30, 1914.

At the Salt Lake City meeting, special appropriations for the coming year were authorized by the Board of Directors, following action at the annual meeting, as follows:

Committee on Teachers' Salaries, Tenure, and Pensions.....	\$2,500
Committee on Articulation of High School and College.....	1,350
Committee on Rural Schools.....	1,000
Committee on Uniform Nomenclature in English Grammar.....	1,400
Committee on College-Entrance Requirements.....	40
Committee on Vocational Education and Vocational Guidance.....	2,000
Committee on Health Problems.....	1,500
Committee on Tests and Standards of Efficiency.....	1,000

By action of the Board of Directors, the Executive Committee was authorized to apportion any funds in its possession to the committees above named in amounts to be determined by it, except that the full appropriation was to be maintained for the Committee on Teachers' Salaries, Tenure, and Pensions if needed. It was known at that time that the full amount could not be allowed to the several committees. At a meeting held October 20-22, after a careful consideration of the financial situation, the following apportionments to the several committees were made:

Committee on Teachers' Salaries, Tenure, and Pensions.....	\$2,500
Committee on Articulation of High School and College.....	525
Committee on Vocational Education and Vocational Guidance.....	450
Committee on Health Problems.....	750
Committee on Tests and Standards of Efficiency.....	350
Committee on College-Entrance Requirements.....	40

It was also agreed that in case the Committee on Rural Schools required an expenditure of not to exceed \$500, arrangements should be made for carrying over, until next year, bills amounting to that sum incurred by the Committee on Teachers' Salaries, Tenure, and Pensions.

The Treasurer's report shows expenditures on special appropriations during the year of \$4,168.76. This amount was distributed as follows:

BILLS INCURRED THE PREVIOUS YEAR BUT NOT PAID PRIOR TO THE ANNUAL STATEMENT

Committee on Tests and Standards of Efficiency.....	\$276.34
Committee on Economy of Time.....	154.88
	\$431.22

SPECIAL APPROPRIATIONS MADE BY THE BOARD OF DIRECTORS AT LAST MEETING

Committee on High-School Course in English.....	\$153.05
Committee on Vocational Education.....	157.93
Million Dollar Campaign Fund.....	247.49
	\$558.47
Carried forward.....	\$989.69

THIS YEAR'S APPROPRIATIONS

Brought forward.....	\$ 989.69
Committee on Teachers' Salaries, Tenure, and Pensions..	\$1,531.20
Committee on Health Problems.....	749.15
Committee on Tests and Standards of Efficiency.....	350.00
Committee on Articulation of High School and College...	346.67
Committee on Vocational Education.....	165.45
Committee on College-Entrance Requirements.....	36.60
	<u>\$3,179.07</u>
	\$4,168.76

The outstanding indebtedness incurred by the several committees not reported to the office before the annual report was made is as follows:

Committee on Vocational Education.....	\$345.46
Commission on the Reorganization of Secondary Education.....	178.33
	<u>\$523.79</u>

FINANCES

At the Salt Lake City meeting, the Trustees, Executive Committee, and Board of Directors devoted considerable time to the discussion of the finances of the Association. An estimate of receipts and expenses for the year was prepared and we are now able to report as to how it compares with the results for the year.

The estimated receipts were \$149.35 higher than the actual receipts. The income from interest has been \$444.08 more than was expected, while the income from memberships was \$610.00 less, the other items of receipt being very nearly what was anticipated. A year ago we had 598 members who had not paid their fees for the current year; at the close of this year, the number is 1,021.

The estimated expenses were \$1,025.69 below the actual expenditures. The largest errors in estimates related to printing and distributing the *Proceedings* and *Yearbook*, which cost \$367.80 more than was anticipated, and printing the Executive Committee Bulletins, which cost \$425.27 more than we figured. However, in connection with that error, it should be noted that our saving in the printing and distributing of the *Proceedings* and *Yearbook* this year over last was \$9,565.74. A comparison of the expenditures this past year with those of two years ago will show the effect of establishing the *Bulletin*, which can be mailed at second-class rates. Two years ago the office spent for postage and Executive Committee Bulletins \$3,531.44; this year, \$2,904.62. Two years ago the two regular preliminary announcements and one special were issued, whereas this year we issued five regular *Bulletins*. While our printing bill is somewhat larger, the saving in postage more than offsets it. In the estimates made at Salt Lake City, it was thought that \$3,200 would be available for educational investigation this year; as a matter of fact, we have spent \$3,179.07.

At Salt Lake City, a motion was passed by the Board of Directors authorizing the Executive Committee to try to secure the franking privilege for our publications. Acting under your direction, I made a careful investigation of the situation and found that it would be absolutely impossible, as Congress had at this session turned down a proposition to frank the reports of the state boards of health, a matter in which the representatives from every state in the Union were interested. In attempting to secure second-class privileges for our publications, including the volume of *Proceedings*, it was found that the Postmaster-General would oppose any extension of second-class privileges, owing to the fact that he is extremely interested in increasing the effectiveness of the parcels post. In interviews with department heads, as well as with the Postmaster-General, which were secured thru the kind assistance of Hon. J. W. Abercrombie, congressman from Alabama, we were given to understand that, in all probability, the extension of the parcels post system would, in due time, afford us a cheaper rate of transportation than we are now getting, altho not as cheap as the second-class rate. All the officials were sure that second-class matter was a losing proposition, but their guesses as to the amount of annual loss were about ten million dollars apart.

However, the issuance of the *Bulletin*, together with the comments that have been made thereon, leads me to suggest that it would be well for us to consider the advisability of establishing a magazine with ten issues a year, in which we should print our proceedings, making them the backbone of the magazine. This magazine should not enter the field as a competitor of any of the educational journals now established, but rather as the organ of the Association, furnishing to the members the papers and such other data concerning the meetings as are now given to them in the *Bulletin*. An issue sufficiently large should be printed to provide for our membership, and then the portion of each issue containing notices, etc., should be run as a bulletin for free distribution for advertising purposes, the same as we now issue the *Bulletin*, which has been printed in issues of from forty to sixty thousand. From a rough estimate made as to the cost of the suggested change, I believe we could issue the ten numbers with a neat paper cover and distribute them to our membership at a saving of about \$2,500 a year over the present method, the largest saving, of course, being in express. From inquiries made, I believe that many would appreciate the opportunity of receiving the proceedings on the instalment plan rather than in one large volume. I believe such a magazine would appeal to a larger number of persons who are unable to attend the meetings regularly than does the idea of securing a single book containing all the papers.

I would suggest, that, during the coming year, either thru the *Bulletin* or by personal letters, our membership be sounded on this question. Also that, in case it appears wise to make the change, it be made following the International Congress, which we have decided to hold in 1915, and which will naturally have sufficient material presented so that a volume containing the matter of the Congress proper could be issued and the rest of the material issued thru the monthly magazine. Should this plan be adopted, it would be well to arrange that any member should have the choice of receiving the proceedings in the present form or in the new form for the regular \$2.00 fee, or in both forms by the payment of an additional dollar. It will always be advisable for the Association to have a stock of *Proceedings* that can be furnished to libraries from time to time. Arrangements could be made whereby an edition of from five hundred to one thousand could be bound each year, the number above five hundred, which would be considered stock, being determined by the orders received in advance of a determined date. So far as next year is concerned, it is the intention of the Secretary to issue the *Bulletin* in the same sized page form as the *Proceedings*, which will make it more convenient for filing purposes by those who desire to keep it.

The time at which the summer meeting has always been held is one that is coming more and more to conflict with the summer sessions in normal schools and universities. As a result of the suggestion of the Commission on International Congress of Education to be held in 1915, the Board of Directors has voted to hold the 1915 meeting after the middle of August. It is suggested that during this year we attempt to secure the opinion of our membership concerning the advisability of making a change in the time of holding our summer meeting, so that it will be regularly held at a date following the close of most of the summer schools. With the school schedules as now arranged, the meeting does not in most cases follow the closing of school by one week as formerly, and the summer normals have all gotten under way by the time of our meeting. Another argument in favor of the later date is that the particular value of large meetings lies in the inspiration which comes to the attendant from listening to the papers that are presented and from mingling with the teachers from other sections of the country. Under the old plan, this inspiration is largely dissipated as the result of the summer's outing, whereas, if the meeting were held just prior to the opening of the fall term, the teachers would go into their schoolrooms with renewed energy and with the ideas fresh in mind from the convention which they desire to put into effect during the school year.

The changed attitude of the railroads concerning rates will necessarily influence the attendance at these meetings from distant points, so that more and more the Association

meetings will be sectional in character so far as attendance is concerned. This is illustrated by comparison of the records of the Chicago meeting with those of the Salt Lake City meeting. At the Chicago meeting, the new active members enrolled were 1,520, of which 1,135 came from Illinois and contiguous states, leaving 385 from the remainder of the country. At Salt Lake City, the enrolment of new active members was 527, of which 165 came from Utah and the contiguous states, leaving 362 from the remainder of the country. At Chicago, the enrolment of associate members was 9,511, of which 9,038 were from Illinois and contiguous states, leaving 473 from the remainder of the country. At Salt Lake City, the enrolment of associate members was 3,992, of which 3,087 were from Utah and contiguous states, leaving 905 from the remainder of the country. The railroad situation being as it is, the question arises whether it would not be advisable for the Association to enter upon a definite policy of rotation, so far as sections of the country are concerned, when determining the places of meeting, in order that about once in five years every section of the country might be influenced by the presence of the national meeting, rather than still to pursue the hit-and-miss policy under which five successive meetings are being held west of Chicago.

In addition to the report of the business of the Secretary's office for the year July 1, 1913, to June 30, 1914, attention is called to the following record of the number of Active Members enrolled for the statistical year December 31, 1913, to December 31, 1914. The enrolment at the date of this report has reached a total of 7,063. There have been added since the last membership list was published 675 new active members. The net decrease in active members for the year is 518.

The following table shows the growth of the Permanent Fund, provided for by the constitution, and the net revenue from this fund since its foundation in 1886, as shown by the annual reports of the Board of Trustees.

The surplus receipts from the meetings of 1884 and 1885 and from other sources were turned over to the Board of Trustees at the time of the incorporation of the Association as the first instalment (\$3,400) of the Permanent Fund.

THE SECRETARY'S OFFICE

Since the establishment of an office for the Secretary, it has been the custom, under the direction of the Trustees and Board of Directors, for the Secretary to assume full charge of the collection of the annual dues and all other receipts at the annual convention, turning over the same to the Treasurer during the convention and accounting to the Treasurer directly for all money so collected. It has been the invariable custom for the Treasurer to check up all convention receipts, during the convention, from the original stubs of membership certificates issued, and to audit the same and receipt to the Secretary for all convention revenues, which revenues are, therefore, not included in the record of receipts at the Secretary's office as covered by this report.

During the remainder of the year, the Secretary has been charged by the Board of Trustees and the Board of Directors with the collection of annual dues of active members not attending the annual conventions; of enrolment fees and dues of new members enrolled at other times than during the annual convention; of receipts from the sale of back volumes, reports, committee reports, and from all other sources. The revenue from these sources is reported by the Secretary to the Treasurer monthly, and all accounts of both Secretary and Treasurer are examined and audited by an audit company at the close of each fiscal year.
