The Board of Directors shall consist of the President, the First Vice-President, the Secretary, the Treasurer, the chairman of the Board of Trustees, and one additional member from each state, territory, or district, to be elected by the active members for the term of one year, or until their successors are chosen, and of all life directors of the National Educational Association. gations and liabilities, and to be held liable to pay and discharge all of the debts, liabilities, and contracts of the said corporation so existing, to the same effect as if such new corporation had itself incurred the obligation or liability to pay such debt or damages, and no action or proceeding before any court or tribunal shall be deemed to have abated or been discontinued by reason of this act.

SEC. 11. That Congress may from time to time alter, repeal, or modify this act of incorporation, but no contract or individual right made or acquired shall thereby be divested or impaired.

Approved June 30, 1906.

Accepted and adopted as the constitution of the National Education Association of the United States by the active members of the National Educational Association in annual session at Los Angeles, California, July 10, 1907.

THE DECLARATION OF PRINCIPLES

(Corrected as ordered by the Association)

The National Education Association, assembled in annual convention in the city of Pittsburgh, July 5, 1918, recognizes that the first great business of the nation is the winning of the war, and to this end pledges the fullest measure of service and sacrifice for the sacred cause of our country, of democracy, and of humanity.

At this fateful hour in the life of our nation the Association reaffirms its faith in the American common-school system as the only safe and sure foundation for a democracy either in peace or in war. It asserts its belief that the three-quarters of a century of free public instruction was the main factor in preparing our people for that quick and right understanding of the real meaning of this world-conflict and in making possible that hearty concord of thought and action which placed the material and human resources of the Republic on the side of righteousness, humanity, and civilization. With peculiar satisfaction the Association points to the fact that 50,000 teachers and twenty million pupils

have supported loyally every plan and purpose of President Wilson and Congress in their masterful leadership in honorable warfare for a just cause and a decisive victory.

WAR CRISIS SHOWS NEED FOR READJUSTMENT

While this Association believes that the war crisis has disclosed to the nation, as no other event has, the strength and worth of the American school system, it does not fail to recognize that the emergencies and demands of war have laid bare certain weaknesses and shortcomings in the scope and character of public education that now call for readjustment and reorganization.

ASSOCIATION COMMENDS COMMISSION

The Association commends its Commission on the National Emergency in Education for the broad and comprehensive study of these needed readjustments.

AMERICANIZING THE ADULT POPULATION

The high percentage of adult illiteracy and the lack of understanding of the real meaning of our nation and the principles of its government constitute a menace to national unity and national safety. Therefore this Association recommends that the government shall share with the states the responsibility of providing the funds, the organization, the administration, and the supervision necessary for Americanizing and making literate the adult population of the entire country.

A NATIONAL POLICY OF ENCOURAGEMENT

The most alarming shortcoming in our system disclosed by the war is the unequal educational opportunities offered by the different states to the children of school age within those states. As long as a single state in the Union fails to provide its youth with the means of attaining certain uniform, nation-wide standards of health, intelligence, citizenship, and character, our national life and unity are endangered. This Association therefore urges that the government shall immediately adopt the policy of encouraging all the states to establish uniform minimum standards of health-service training for citizenship, and preparation and compensation of teachers, thru financial aid distributed to the states enforcing these uniform minimum standards, the amount to which any state is entitled to be determined on a simple basis. Nothing in this national policy of encouragement to the several states shall be permitted in any way to weaken the local responsibility or initiative, or to subtract from the power of the state to organize, administer, supervise, and instruct the schools of that state.

ASSOCIATION AUTHORIZES FIELD SECRETARY

The Association commends the thoroughgoing study made by the Committee on Salaries, Tenure, and Pensions, and recommends its report for the careful consideration and use of teachers, school boards, taxpayers, and lawmakers. In order to collect full information concerning the present state of public education, to enlighten public opinion, and to aid in securing appropriate local, state, and national school support, the Association authorizes the Executive Committee to secure the full time, for a term of not less than three years, of an educator of recognized ability and experience, and to provide for the organization, correspondence, travel, publication, and other expenses of his office, a total sum, including salaries, of at least ten thousand dollars a year.

INSURE TEACHERS LIVING AND SAVING WAGE

To the end that schools may be kept open and that the children of the Republic may have competent teachers we declare it to be the patriotic duty of taxpayers and lawmakers to provide sufficient revenues to insure a living and a saving wage to the teachers of the country.

FEDERAL CHILD-LABOR LAW

The Association urges the immediate enactment by Congress of a federal child-labor law which will not only meet the objection found by the Supreme Court in the one declared unconstitutional, but which will extend protection to a greater number of the children of the United States.

SOCIALIZED SCHOOLS FOR EFFICIENT DEMOCRACY

The schools of a modern, efficient democracy must necessarily be socialized schools. They must train for the whole life of all the people. To achieve this result the Association recommends that larger opportunities be provided for activity which will develop the initiative and resourcefulness of children, thus fitting them to meet the demands of our democracy.

COLLEGE MILITARY UNITS APPROVED

This Association approves heartily the action of President Wilson and the Secretary of War in offering a plan whereby young men above eighteen years of age may enlist in the army and continue their college courses in such institutions as have at least one hundred students ready and eligible to form a military unit.

WOMEN TO TRAIN GIRLS FOR CIVIC AND SOCIAL LIFE

The present emergency demands the careful consideration of the problem of training the girls of America for efficient and intelligent participation in the civic and social life of our local communities, of the state, and of the nation. The Association therefore urges that in city, county, and state school systems women with skill in leadership be placed in charge of that part of our school work which has the direct responsibility of training the women of tomorrow to assume the new obligations of civic and social life.

TRAINING FOR CITIZENSHIP DEMANDED

The Association demands the teaching of patriotism by every teacher from the kindergarten to the university, and the employment of only those teachers who are loyal to our national ideals. It urges that all teachers, as soldiers of the common good, take the oath of allegiance. The Association further demands that all instruction in the schools of the nation be conducted in the English language.

COMMITTEE ON PUBLIC INFORMATION

The Association commends the action of President Wilson in making the publicity of the best work of our public schools a part of the work of the Committee on Public Information, and expresses its appreciation of the President's support of the movement to mobilize the boys and girls of America for food production.

COMMENDS JUNIOR RED CROSS

The Association particularly commends the patriotic service of the Junior Red Cross with the understanding that it conform to the standards, motives, and aims of the American Red Cross.

EDUCATION OF ENLISTED MEN

The Association favors the making of liberal provisions by both state and nation for the giving of special assistance, opportunity, and encouragement to the men in the service of the country to obtain the advantages of education that were omitted by the necessity of the great crisis.

STATES URGED TO ADOPT PROHIBITION AMENDMENT

The Association urges the adoption by the states of the amendment for the prohibition of the sale and manufacture of intoxicating beverages.

SUFFRAGE AMENDMENT APPROVED

The Association favors the granting of the ballot to the womanhood of America and urges the Senate of the United States to pass at the present session the separate suffrage amendment to our federal Constitution.

FAVORS ESTABLISHMENT OF A NATIONAL UNIVERSITY

The Association favors the establishment of a national university, the creation of a national department of education under the direction of a secretary of education, and the protection of teachers in all departments of education from unwarranted dismissal by employing bodies.

FOOD ADMINISTRATION TO PREPARE CONSERVATION PROGRAM

The Association recommends that the United States Food Administration prepare in a form suitable for use in elementary schools, and particularly in the upper grades, lessons and materials supplementary to existing courses, which will promote the program of food conservation. It is further recommended that the food administration call to its assistance representative school authorities familiar with the capacities of children of the different grades to constitute an advisory council for the Food Administration in the preparation of material designed for school use.

HEALTH AND PHYSICAL TRAINING

Realizing that good health and a good physique constitute the foundation for all life-work, physical, mental, and spiritual, the Association urges that boards of education make health and physical training a major subject, with equal rating with all other school subjects, and that adequate facilities, including teachers, playground, and apparatus, be provided; and further, that care be exercised to secure those teachers best adapted to the training of boys and girls.

The Association instructs the Commission on the Emergency in Education and such other committees as may have under consideration the problems of health and physical education to inquire concerning the work that is now being done and the methods which may have proved most acceptable in the field of sex education.

DUAL SYSTEM OF SCHOOLS CONDEMNED

The Association favors amending the Smith-Hughes Act to prevent the possibility of establishing a dual system of schools in any state.

CONSCRIPTION FOR SELECTIVE SERVICE

In the emergency that now exists the Association urges that all the manhood and womanhood of the United States be conscripted for selective service.

N. E. A. OFFICERS COMMENDED

The members of the Association commend the present administration of the National Education Association for the excellent program presented and for the constructive character of the work which the Association is doing.

PATRIOTIC SPIRIT OF CONGRESS

The Association wishes to express its appreciation of the national Congress for the patriotic spirit shown in the hour of crisis in its subordination of partisanship to statesmanship in national legislation.

ENTIRE CONFIDENCE IN PRESIDENT

Realizing the tremendous task suddenly imposed upon our government in changing from the pursuits of peace to those of war, and appreciating the marvelous achievements in creating an army, in mobilizing all the economic forces of the nation, and especially in

transporting an immense army across an ocean beset by unusual dangers, while supplying our Allies with food and war material, the Association expresses its confidence in the national administration, and especially its confidence in the ability, clearness of vision, and leadership of the Commander in Chief of our Army and Navy, President Woodrow Wilson.

MINUTES OF THE MEETING OF ACTIVE MEMBERS OF THE NATIONAL EDUCATION ASSOCIATION FOR THE YEAR 1917-18

SOLDIERS' MEMORIAL HALL, PITTSBURGH, PA., JULY 5, 1918

The meeting was called to order at 11:27 A.M., by Mary C. C. Bradford, President of the Association.

The President stated that the Committee on Necrology would not report at the business meeting but would report later to the Executive Committee, and its report would be printed in the annual volume of *Proceedings*. The names of the members of the Committee will be found on another page.

The Treasurer, A. J. Matthews, of Tempe, Ariz., presented his written report and called attention to the fact that it had been audited and approved by Marwick, Mitchell, Peat & Company, certified public accountants, and that it had been approved also by the committee appointed by the President of the National Education Association. After calling attention to a number of items the Treasurer moved the adoption of the report, which was duly seconded, put, and carried. The report is given in full on another page.

The chairman of the Board of Trustees, C. G. Pearse, president, State Normal School, Milwaukee, Wis., presented the printed report of the Board of Trustees. He called special attention to the fact that the permanent invested fund of the Association had reached the \$200,000 mark, and that \$50,000 of this amount had been reinvested in Liberty Bonds.

He called attention to the selection of headquarters for the National Education Association at Washington, D.C., and what this had meant in way of membership to the Association. His motion to adopt the report was duly seconded, put by the President, and carried. The report of the Board of Trustees will be found on another page.

The chairman of the Committee on Nominations, Robert J. Aley, president of the State University of Maine, after a few preliminary remarks presented the following report as the unanimous vote of the committee:

For Vice-Presidents.....	MARY C. C. BRADFORD.....	Denver, Colo.
	M. L. BRITTAIN.....	Atlanta, Ga.

	ISABEL LAWRENCE.....	St. Cloud, Minn.

For Treasurer.....A. J. MATTHEWS.....Tempe, Ariz.

For State Directors (See list printed on another page.)

Mr. Aley then moved the adoption of the report authorizing the Secretary to cast one ballot for each of the officers named in the report. On the suggestion of D. W. Springer, of Michigan, the name of J. H. Phillips was added to the list as Director for Alabama. The vote was then taken on the motion before the house and was carried. The Secretary stated that he had cast the ballot of the Association for each name in the list, and the President announced that the officers of the Association had been duly elected.

The chairman, J. F. Keating, superintendent of city schools, Pueblo, Colo., of the Committee of Resolutions was then called upon and reported the resolutions prepared by the committee as follows:

The members of the Association express their appreciation to the Committee on Arrangements for the measures taken for the success of this meeting, to the press of the city for its reports of our meetings, to the teachers, to the board of education, to the city officials, to the chairmen and their associates of the special committees on entertainment, and to the citizens of Pittsburgh for the royal welcome and hospitality accorded the Association.

The Declaration of Principles as amended by the Association is printed elsewhere in this report.

Mr. Keating, after reading the report including the Declaration of Principles, moved its adoption.

Mr. Keating explained that some of the resolutions were more expanded than they should be, owing to the fact the committee had not had time to put them in complete final form.

James Y. Joyner, state superintendent of North Carolina, expressed a desire to have the motion amended, stating that the thanks of the Association be extended to the Committee on Resolutions for the unusually able manner in which it had performed its duty. The amendment was seconded and carried.

Georgia Alexander, of Indiana, moved that the report be printed and sent to every public-school teacher in the country. The President stated that provision had already been made for the printing, so the motion was not put.

Mr. Springer moved an amendment to the item in the resolutions providing for a field secretary, inserting the words "Executive Committee" instead of "Members of the Board of Trustees." The motion was seconded, put, and carried.

A motion was made by Mr. Owen, seconded, and carried providing that the paragraph beginning with "This Association recommends that the federal government shall assume all responsibility, etc.," shall be referred to the Executive Committee and placed in harmony with the general policy of the Association. The President then put the question for the adoption of the report as amended, and it was adopted by unanimous vote.

The next business announced by the President was the report of the Committee on Salaries, Tenure, and Pensions by Joseph Swain, of Swarthmore, Pa., chairman of the committee, who made the following report:

A brief report from the Committee on Salaries, Tenure, and Pensions of the National Education Association was made Tuesday afternoon at the general session. It remains now only to add that the Executive Committee has ordered this report published in separate pamphlet form. The manuscript will be in the hands of the Secretary of the Association in a few days, with the request that it be published at once, in order that the teachers may secure it at an early date. I have now a joint resolution to present from the Committee on Salaries, Tenure, and Pensions and the Commission on the National Emergency in Education. This statement is in harmony with the statement in the resolutions.

Our schools are in danger. Their present support cannot keep up former standards, much less meet war demands. The money now available is not sufficient to instruct five million illiterates, to Americanize thirteen million foreigners, to provide physical and health education for all children, and to secure adequate school terms and attendance, to pay teachers a living wage, to provide for their professional preparation and development, and to insure security and protection in disability and old age. The teachers of the country were not receiving a living wage before the war; their present situation is critical. In 1915 they received an average annual salary of \$543. The increase since then has been small. The Federal Railway Wage Commission set \$1020 as a living wage in 1915, and \$1428 as a living wage in 1918. Immediate national aid is urgently needed. Increased local taxation and state support will not suffice. Such support will of necessity be available in very unequal degree even if it could be had quickly. Education in agriculture and the mechanic and household arts has long been recognized as essential to national welfare, and national funds are provided to equalize this burden and maintain its standards. General public education is even more essential than national welfare to promote allegiance, intelligence, morality, and devotion of all its citizens. National support of public education, begun in 1785, affirmed in an ordinance of 1787, and extended thereafter,

should now be increased to the extent of liberal cooperation with the state, and thru the state with the local community. A national department of education should be established to carry out this program of cooperation.

The National Education Association, in order to collect full information concerning the present state of public education, to enlighten public opinion, and to aid in securing appropriate local, state, and national school support, hereby authorizes the resolutions read. The Trustees—it would have to be decided whether Executive Committee should be inserted—shall secure the full time for a term of not less than three years of an educator of recognized ability and experience, and to provide for the organization, correspondence, travel, publication, and other expenses of his office a total sum, including salaries, of not more than \$10,000.

Madam President, in making the motion on behalf of these two committees for the adoption of this proposition, allow me to say that this Association in the last seven years has placed certain sums of money in the hands of this committee to expend. I have not before me the exact figures, but we have expended about \$7000 of the money of this Association. The National Bureau of Education has expended almost, if not quite, the same sum of money, and at least as much has been expended from other sources for this purpose as has been expended by this Association and the national government combined; so while these committees are asking at this time for only \$10,000 for the purpose, I wish to say to you that it is not \$10,000 that is needed but ten times \$10,000. It should be, it seems to me, the primary duty of the person who undertakes this work to get the cooperation—that is the typical word that is used in this resolution—of all the teachers and boards of control and others in this country, so that during the next year they will give to this Association not \$10,000 worth of service but more than ten times \$10,000 in service. Madam President, with this introduction I move the adoption of the resolution and report.

The motion was seconded by Nathan C. Schaeffer, state superintendent of Pennsylvania. The President announced that the question was open for discussion. Miss Margaret Haley, of Chicago, Ill., spoke as follows:

Ten thousand dollars is a wholly inadequate sum. It is our hope that it is only a beginning. Indeed I would like to have a much larger amount named, when I realize that the hodcarriers of Chicago use more than that amount of money every year to take care of the interests of the hodcarriers of Chicago. If a hodcarrier is injured or his interest not cared for, there are seven people whose time and energies are offered and are paid for by the hodcarriers to look after him. When I realize that, and then put this \$10,000 for this great Association off on the other side to look at, it looks to me like a very small sum. I can speak for this committee because I am one of the members who did not do anything. As I said to Dr. Swain, some of us stood outside and threw bricks into the Association.

To take this question up, we had to wait until it became a war measure. Now we have a movement to get \$100,000,000 from the government for the schools. What does a hundred million look like when you put it beside the billions that are being spent for war?—and I am not criticizing that expenditure. If we are to have a hundred million dollars from the federal government I can give you the word of Mr. Franklin K. Lane, spoken to me a minute before he went on the platform to give that splendid address: "If you are to get it, you must expect not alone to work for it; you must be prepared to fight for it, and not only a small group, but the entire body of teachers in the United States need to roll up their sleeves and fight for it." I submit that \$10,000 is not adequate, and I submit that we shall need a great deal more. How can you reach the teachers and give them to understand their responsibility—I mean financial responsibility? How can you get them to go down into their pockets and pay their dues to put this work thru unless we are willing to do what other people have done who have secured similar service. I want to see this bill go thru, and I want to see the teachers of the United States a unit as they have been in their war work. And this is work not for a war bonus but for permanently higher salaries. The experience of this nation will not be repeated by the federal government. When those wonderful grants were given by the federal government in 1787, the teaching body of the United States was not awake any more than the people who administered the schools. Today we have in the heart of Chicago a square mile of Chicago, from which, if it had not been alienated, we could have the most wonderful school system in the world without a dollar of taxes. It has been dissipated. When you get this appropriation I sincerely hope that the teachers of the United States will meet their responsibilities if the boards of education and other officials, municipal and state, do not, and see to it that the money is not only secured, but expended for the purpose for which it was secured.

A member of a board of education took part in the discussion and spoke as follows:

The National Security League at this time is conducting a campaign of education, and I am informed by the director of that campaign that, altho they have merely scratcht

the surface, they have used \$165,000 in one year. Your resolution—and I am in hearty accord with it—is a splendid one; but your \$10,000 appropriation, if you will pardon me, reminds me of the dickerings in school boards over your teachers' salaries, the very thing which you wish to remedy. Ten thousand dollars is a drop in the bucket. You may be aware of it—I am—that thruout this country manufacturers are now making a bid for school teachers to go to work for them at salaries which the school boards should blush to continue to endeavor to pay. As a member of the school board I know from comparing the publisht salaries in the large cities that the most menial workers are paid better than school teachers are even after they have seen five, six, even ten years of service in our school system. Either by way of suggestion or as an amendment I suggest that the \$10,000 be stricken out, and that there be inserted an amount sufficient to secure the services of someone to devote his time exclusively to that campaign. Your executive board can very easily determine what the amount is. Ten thousand dollars is just as unfair as are the salaries now paid to the teachers in the large cities.

After the discussion the speaker moved to amend striking out \$10,000 and leaving the amount to be determined by the Board of Directors. A number of suggestions were made by different members concerning the amount which should be specified in the resolution. It was finally decided informally and then put to a vote and carried to have the resolution read "at least \$10,000 annually" and to have the Association understand that the Executive Committee was expected to use much more than that amount if funds were available. Before the question was put to a vote Trustee Pearse, of Wisconsin, was called upon and spoke as follows:

When this matter came up the officials of the Association decided that it was up to this Association to go ahead. They did not have a sou in their pockets with which to go ahead. We askt ourselves whether we should ask some wealthy man or woman to contribute as charity to the National Education Association the money to do this work for education and for the teachers. We did not believe for a minute that you wanted to do that. This should come from the teachers of the country in the form of memberships in the National Education Association. I am going to speak in the vernacular. You will understand when I say that if the teachers did not "come across" we could not do it. We believed that they would "come across" and do it, and we undertook this work. We have made what is called a "drive" for new members. We have had drives of various kinds, for the Y.M.C.A., the Red Cross, Liberty Bonds, Thrift Stamps, and so on. Now here we have a drive for members. If we are going to undertake this work the Executive Committee knows that unless the membership is increast that \$10,000 is the amount that will be available. It is "up to you." If you want this thing to be not less than \$10,000 and from that up to as much as may be needed, it is up to the Directors to go home and get results. The directorship in the National Education Association has hitherto been largely honorary and ornamental. Twenty dollars was allowed for postage, printing, and clerical help, and with that each Director has done what he could or felt he could do. Now the Association is prepared to furnish a little more in the way of subsidization. If we are going to pass this resolution, the thing to do is for every member to go home as an active missionary for the National Education Association membership camapign; for every Director to go home knowing that he has on his back the greatest responsibility that any Director in the National Education Association ever had. It is up to him to produce during this coming year. There ought to be an apportionment of members in proportion to the teachers in the state, and every state Director ought to expect to come across with his proportion of those members. We have computed the amount of Liberty Bonds that ought to be sold in a certain district, and we have sold them. We have computed the number of Red Cross subscriptions that ought to be made, and the subscriptions have been made. We have indicated the amount of money to be subscribed for the Y.M.C.A. in town, county, and city, and it has been subscribed. Now are you ready? Here is the promist land. You remember how Joshua and the spies lookt out over the promist land. This is the hour. There is a tide in the affairs of men and women of the National Education Association that, taken at the flood, leads on to fortune, fortune for education in this country. Are we able to go up and possess this land? Are you state Directors ready to go home and roll up your sleeves and produce?

In answer to the suggestion made by some member that the permanent fund might be used, Katherine D. Blake, of New York City, made the following explanation:

I simply want to read the law on the subject, which is our charter of incorporation: "That no part of the principal of such Permanent Fund or its accretion shall be expended except by a two-thirds vote of the active members of the Association present at any annual meeting, upon the recommendation of the Board of Trustees and after such

recommendation and after printed notice of the proposed expenditure has been made." This is the law. We cannot touch that.

A number of the other members took part in the discussion. The President then put the motion as amended, which was adopted by unanimous vote, and in announcing the result stated that she fully expected that the adoption of that report meant 75,000 new members for the Association.

Following the adoption of the report the discussion was permitted to continue, in which many members gave assurances of their desire to aid in the drive for new members. It was finally decided by unanimous vote to set the mark at 100,000 new members for the drive, and to pledge the state Directors and members of each state to see that the state's quota should be raised. Among those who participated in the discussion were C. G. Pearce, of Milwaukee; Margaret Haley, of Chicago; Miss Lang, of Pennsylvania; J. F. Keating, of Colorado; J. L. McBrien, of the Bureau of Education; William M. Davidson, of Pennsylvania, and a number of others.

J. Y. Joyner, of North Carolina, then spoke as follows:

It seems to me that the motion we have just adopted, together with the pledges, is all that we need on this question. I think it better to go home now. I think it well not to let all this pent-up enthusiasm come out now, but to keep it pent up until we get home.

At this point there was enthusiasm and a desire to offer subscriptions. A number of members offered to give \$25 or more, and many offered to pledge local and state associations to larger amounts. It was finally decided that donations would not be received at the present time, but that all the teachers of the country would be given a chance to have a part in carrying out the large program which had been adopted by the Association. After a rising vote had been taken pledging the Association still more strongly for a successful drive and for going forward in carrying out the program and the resolutions adopted by the Association, Mr. Pearce spoke as follows:

Now, friends, that rising vote is not just a little vote that you may forget when you go home. It is a solemn pledge of allegiance to the National Education Association and thru it to the spirit of America, and you dare not be foresworn!

May I suggest one other thing? I should like to have—if it can be done in a few minutes—instruction given to the state Directors and to the members present from each state that they shall go home and wake up their state associations and get their state associations behind them, and all push on this same thing, and the superintendents too.

I think it should be not only the state associations but all other organizations in the state. I move that we express our approval of the pledge and lay the obligation upon every state association to back up this drive and lay it upon the soul of the state Director to get this result.

Robert J. Aley, of Maine, spoke as follows:

I simply want to say this. In the emergency which has developed in the last year your Executive Committee saw the need of money that they did not have. They took the chance, backed up by their courage, that you could be relied upon to furnish that money. The drive that has been undertaken has resulted already in about 20,000 new members. The drive has just begun. Now I want to make a motion that the drive already inaugurated be approved, and that we as members pledge ourselves to cooperate in making the drive for the next six months result in at least 100,000 members.

The motion was seconded, put, and a unanimous vote recorded for its adoption.

The next order of business was announced as the report of the Committee on Reorganization. W. B. Owen, of Chicago, chairman of the Committee, reported as follows:

The Committee on Reorganization reports the following recommendations:

1. That the preliminary report of the committee which appeared in the April *Bulletin* of the National Education Association be received.
2. That all suggestions that reach the committee before October 1, 1918, shall be considered as having been introduced at the present annual meeting, and that all such proposals be published in the October, 1918, *Bulletin* of the Association.
3. That the President of the Association be authorized to add to the membership of the committee.
4. That action on the committee's report be deferred one year.

It was moved and seconded that the report of the committee be adopted. The President put the question on the motion, and it was unanimously carried.

The President then called for a report of the Executive Committee, which was presented by Mr. Aley, the Vice-President of the Association. He presented the report which had been prepared by the Executive Committee, which may be found under the minutes of the Executive Committee meeting preceding the business session, and moved the acceptance of the report. F. M. Hunter, of California, seconded the motion which was put by the chairman, and it was adopted by unanimous vote.

The floor was then given to Mr. Coleman, representing the Western Department of the War Work Council of the Y.M.C.A. He spoke on his resolution and moved its adoption. Several members participated in the discussion of the motion.

Mr. Swain moved that the resolution be approved in principle and that the matter of the wording of it be referred to the Executive Committee so that it can be put in harmony with the rest of the program. The motion was seconded and adopted.

A motion by Miss Blake, of New York, that Miss Ada Van Stone Harris be appointed a member of the Emergency Commission was seconded, put, and adopted by unanimous vote.

Mr. Pearse made the following statement:

I wish to take this opportunity to read an amendment to the By-Laws to be voted on next year. There is now only one way in which a person may become an active member of this Association, by paying an enrolment fee of \$2.00 and the annual dues of \$2.00. I have thought that perhaps there should be another way. The members to be enlisted in this drive—most of them young girls with small salaries, who hesitate to pay \$4.00—should be permitted to become active members. This is an amendment to Article I, Section 1, of the By-Laws by adding the following: "or upon the payment of the associate membership fee for the third consecutive year."

The President announced that proper notice had been given so that action could be taken on the proposed amendment at the next meeting of the Association.

Following the remarks made by Robert L. McElroy, of the National Security League, urging the Association to use large sums of money for this important work, the President announced that the time had come for adjourning, but that it was not in order to adjourn without hearing from the President-Elect, George D. Strayer, of Columbia University, New York. Mr. Strayer spoke as follows:

I will not detain you. You have given me the greatest honor and distinction that can come to an American teacher. You have placed upon my shoulders the greatest responsibility that I have ever had to bear. But you have given me evidence today of the fact that every member of this Association—and before the year is out all the teachers of the United States—will stand back of a program of education which is to make for the realization of the ideals of our democracy.
