

The JOURNAL of the NATIONAL EDUCATION ASSOCIATION

VOLUME XXV

JANUARY-DECEMBER, 1936

THE JOURNAL serves the entire membership of the National Education Association. It has the largest circulation of any professional journal in the world. As the organ of the National Education Association its policy is determined by the resolutions and activities of the Association itself. It aims to give an overview of education. It emphasizes pioneer undertakings. It seeks to encourage among educators a broader interest in the larger problems of education and life.

Persons binding their copies of the JOURNAL into an annual volume will use this sheet for a title page. The 1936 volume includes nine issues, one for each month except June, July, and August.

Executive officers of the National Education Association—Orville C. Pratt, *president*; Willard E. Givens, *executive secretary*. The JOURNAL is the official organ of the Association—Joy Elmer Morgan, *editor*; H. A. Allan, *business manager*.
