

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. LIST OF LIFE AND ACTIVE MEMBERS

ARRANGED BY STATES, CLASSES, AND YEARS OF CONTINUOUS MEMBERSHIP

REVISED TO DECEMBER 1, 1898

In preparing this list, the Secretary has found the records of annual membership very imperfect, especially in the earlier years. Every effort has been made, with the assistance of the members, to correct all errors. It is too much to hope that this has been fully accomplished. Further corrections will be made as errors are discovered. All whose names appear in the following list are invited to send to the Secretary, at once, corrections of errors and omissions.

Many early members of the association who have contributed largely to its growth and success are enrolled under recent dates because their membership has not been continuous, and no plan for indicating irregular memberships has been adopted. Many others have paid the dues for omitted years, received the volumes of proceedings, and obtained credit from the earliest years of their attendance. This privilege is still extended to all who wish to avail themselves of it.

All active members are urged to co-operate with the Executive Committee in extending this list until it includes the leading educators of every state, to the end that the association may receive their active support, and may in turn render most efficient service thru its meetings, its organized plans for educational investigation, and its published reports.

The annual active membership fee will be due at the time of annual meeting, and may be paid by a railroad membership coupon delivered to the Treasurer, by cash payment to the Treasurer during the annual meeting, or by cash remittance to the Secretary before September 1 of each year.

The marginal years indicate the date of the commencement of continuous annual membership for those whose names immediately follow. The indented years indicate date of appointment to present educational position. The names of deceased members are indicated by a *.

Extra copies of this list may be obtained by remitting thirty cents to the Secretary, Irwin Shepard, Winona, Minn.
